

# Single Lamp LED Pendant

**LP10345**  
INSTALLATION SHEET

## START FROM HERE

- Make sure **POWER** is **COMPLETELY OFF** at the fuse box
- Have your fixture installed by a qualified licensed electrician
- Prepare everything in a clear area
- Wear gloves at all time during this installation
- Read instructions carefully before you start assembly
- Keep this installation sheet for future reference

### Please Note:

- All Kuzco LED fixtures come with pre-wired LED module(s).
- Unless instructed to do so, please do not touch any part of the LED module(s) as any unnecessary contact with the module could cause permanent damage.
- For dimming, an ELV (Electronic Low Voltage) type of dimmer is required.

**CAUTION:** HEAVEY FIXTURE, THE JUNCTION BOX NEEDS TO BE REINFORCED BEFORE INSTALLATION.

**Technical Support:** 1-855-855-8926

- 1.** Remove the fixture from it's original packaging. Remove the canopy mounting plate (**1c**) from within the canopy (**2a**) by removing the decorative nuts (**2b**). Secure the mount plate (**1c**) (with canopy screws facing downward) to the reinforced junction box (**1a**) with screws (**1f**) see **illustration 01**.
- 2.** Attach the fixture to the mounting plate, which is attached to the electrical junction box on the ceiling. First attach all wiring (**1b**) with the provided marrets (white to white "N", black to black "L", ground to ground "G"). If desired, adjust the cables to a maximum of 72 inches. Turn the nut (**2c**) counter clockwise to release and clockwise to secure. Once this is complete you can thread on the decorative nuts (**2b**) to the two threaded studs (**1d**) until the fixture is secured to the ceiling.
- 3.** You have now completed the installation of your fixture, enjoy.
