Optional light source: ceiling mounted or recessed downlights.

General recommendations:

Number of downlights: 4 to 7

Beam Angle: 45° - 60°

Color Temperature: 2700K - 3000K

Lumen Output: 800 - 1200 lumens for downlight

CRI (Color Rendering Index):  $\geq 90$

Specific lighting designs may vary based on the space and desired atmosphere.

**IT** In caso di illuminazione, si consiglia di utilizzare delle luci dall'alto, orientate perpendicolarmente alla struttura, impiegando un minimo di due sorgenti luminose.

**UK** In the case of lighting, it is recommended to use overhead illumination, oriented perpendicular to the structure, employing a minimum of two light sources.

**FR** Dans le cas de l'éclairage, il est conseillé d'utiliser des lumières par le haut, orientées perpendiculairement à la structure, en utilisant au minimum deux sources lumineuses.

**DE** Bei der Beleuchtung empfiehlt sich die Verwendung von senkrecht zur Struktur ausgerichteten Deckenleuchten mit mindestens zwei Lichtquellen.

**RU** В случае освещения целесообразно использовать светильники сверху, ориентированные перпендикулярно конструкции, используя минимум два источника света.
