ACCORD LIGHTING

1448 E22

E-26

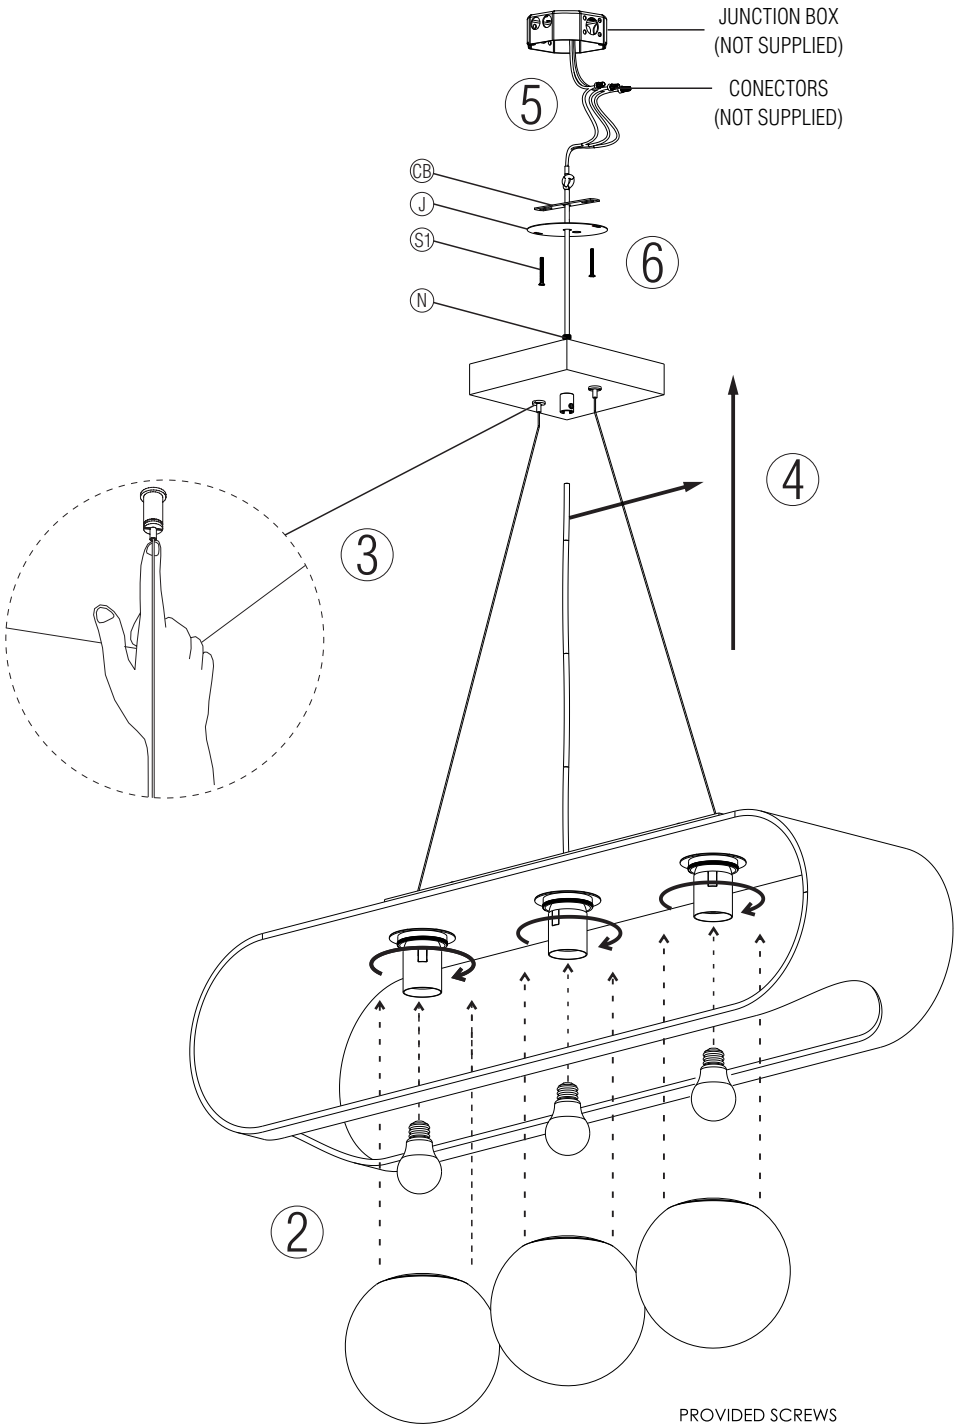

ASSEMBLY INSTRUCTIONS

USA & CANADA

WARNING!

Be sure electrical power is OFF before and during installation or maintenance.
The luminaire must be installed by a qualified electrician, in accordance with all applicable local codes.

Ensure that the rated luminaire voltage requirements are compatible with the available mains supply in which it will be installed.
All LEDS are included in your lamp. Never touch the LED surface with your bear hands as this may reduce the life of your LED.
Do not alter, relocate or remove any electrical component.

Line: Sfera
Family: Pendant
Description: Accord Sfera Pendant 1448

Material: Natural Wood Veneer MDF and Globe

INSTALLING THE FIXTURE ON CEILING

IMPORTANT: The luminaire is fitted only for use of E27 A45 lightbulbs.

Turn OFF the power before start the installation, and keep it off until the installation is complete.

① Remove the protecting package from the pieces taking care to not harm any part with cutting surfaces or objects. Lay the parts of the fixture on a horizontal surface in order to connect them. If needed use the protecting package to soften the surface and protect the parts from getting scratched or harmed.

② Remove the diffuser globe by unscrewing it from the metal support, counter clockwise. **Install an E27 A45 lightbulb (not included)** taking care to not exceed the recommended wattage rating of 25W. Insert the diffuser globe at the support and lock it in place, twisting it clockwise.

③ The steel cable must be inserted into the adjustable cable clamps installed in the canopy. To insert the cable and adjust the height, press the end of the clamp while simultaneously inserting the cable. When you release the end, the clamp will lock and secure the piece. Adjust all the clamps and steel cables of the piece, and set the desired height, leveling the fixture. After adjusting, reserve the excess cables by coiling them, ensuring that these cables do not touch the electrical connections.

④ Insert the power cable into the cable clamp (F), nipple (N), and fixing bar. Adjust the cable length to match the desired installation height of the fixture.

⑤ Make the electrical connections in accordance with all applicable safety regulations and electrical installation codes. This product must be installed in compliance with the relevant technical standards and by someone familiar with electrical installations, the product itself, and aware of the associated risks.

⑥ Attach the crossbar to the junction box using the supplied screws (S1).

⑦ After electrical connections are made, place excess wire inside of the junction box.

⑧ Bring the canopy to the ceiling and secure it by screwing the strain relief cone with the threaded tube niple into the crossbar.

PROVIDED SCREWS

S1

Turn ON electrical power.

Your luminaire is now ready for use.

ATENTION!

FAILURE TO COMPLY WITH THESE INSTRUCTIONS MAY CAUSE ACCIDENTS AND LOSS OF PRODUCT WARRANTY.
Its recommended to read these instructions completely and carefully before proceeding.

SAVE THESE INSTRUCTIONS FOR FUTURE REFERENCE.

ACCORD Lighting guarantees coverage against manufacturing defects including electrical components and finishes, for a period of three years, under normal use, from the date of purchase.
