W: 52,5 cm / 20.7", H: 74,5 cm / 29.3", D: 49 cm / 19.3", Seat H: 46,5 cm / 18.3"

Product description:

Lunar Chair is a versatile wooden dining chair with a great balance between functionality, aesthetics, and comfort. The characteristic rounded backrest with integrated armrest, crafted from a single piece of solid wood, ensures optimal comfort with both elbow and lower back support and enables a variety of seating positions.

The wood seat rests on a strong X-shaped structure that provides optimal stability and supports the light expression. The padded seat upholstered in Kvadrat Hallingdal 65 adds a luxurious touch and excellent comfort. The chair is stackable and can also be hung on the tabletop. These functional features, combined with its elegant, harmonious expression and durable construction, make Lunar Chair the perfect choice in work settings or home interiors.

Designer's thoughts:

'With Lunar Chair, I wanted to make a light and embracing chair. My goal was to make a chair that allows for changing seating positions and avoids locking the user into one position. The round profiles are consistently repeated in all the components, giving the chair a coherent, feminine, and soft expression.' – Jonas Herman, Herman Studio
