

ASSEMBLY INSTRUCTIONS

CULVER TREE FLOOR LAMP

2121589CR / 2121589MB / 2121589PB

- Carefully remove all parts from the carton and place them on a clean surface. Please refer to the below list of components included inside the carton.
- To assemble the 2 shades (L, M) to the floor lamp column. Firstly unscrew the set screw (C) loosening, so that the shade swivel can rotate into lamp body (E) smoothly. Then rotate the shades counterclockwise two times to twist the wire, then insert the slack wire of shades (L/M) into lamp body (E) and rotate clockwise into position until snug. Secure each shade with set screw (C) using Allen wrench (B).
- To assemble the floor lamp column, screw tube (F) into lamp body (E). Insert male/female wire connector (O) and (P) together and then screw tube (G) into tube (F) until snug.
- Assemble lamp body (G) onto lamp base (J) until snug by rotating base (J).
- Insert bulbs (D) x 3 into the sockets snugly.
Bulb: G45 E12 120V 5W 2700K Flicker-free LED (included).
- Connect cord (I) to floor dimmer switch (H).
- Plug into a 110V outlet.
- Enjoy the beautiful light.

IMPORTANT SAFETY INSTRUCTIONS

This lamp has a polarized plug (one blade is wider than the other) as a safety feature to reduce the risk of electric shock. This plug will fit in a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Do not alter the plug.

IMPORTANTES INSTRUCCIONES DE SEGURIDAD

Esta lámpara tiene un enchufe polarizado (una navaja es más ancha que la otra) como forma de seguridad para reducir el riesgo de un shock eléctrico. Este enchufe polarizado entrará en una conexión solo de un lado. Si el enchufe no entra en la conexión trate al reverso. Si aun así no entra, contacte a un electricista calificado. Nunca use una extensión a menos que el enchufe pueda ser conectado completamente. No altere el enchufe.
