SAMARAN LED
CEILING FAN LIGHT KIT
INSTALLATION INSTRUCTION

Model: 3-9-116

READ AND SAVE THESE INSTRUCTIONS

WARNING! RISK OF ELECTRIC SHOCK

All electrical connections must be in accordance with local codes, ordinances, or national codes. If you are unfamiliar with methods of installing electrical wiring, secure the services of a qualified electrician.

Before starting installation, disconnect the power by turning off the circuit breaker or removing the fuse at fuse block. Turning power off using fan switch (speed control on/off) is not sufficient to prevent electrical shock.

NOTE: The important safeguards and instructions appearing in this manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care are factors which cannot be built into any product. These factors must be supplied by the person (s) caring for and operating the unit.

1. While holding the LED light kit under the fan motor assembly, make the 2-pin wire connections: (Fig. 1)
   -White to white
   -Black to black

2. Position the notches in the the light kit so they line up with the tabs on the mounting plate. Secure it to the fan by turning the light kit clockwise until snug.

3. Restore power and your light kit is ready for operation.
