INSTALLATION INSTRUCTIONS

Item#4885-66A (New. 02/02/2021)

READ AND SAVE THESE INSTRUCTIONS

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.

AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

MOUNTING THE FIXTURE (Fig.1)

- 1. Shut off power at the fuse box or circuit breaker and remove the old fixture included the mounting hardware.
- 2. Carefully unpack your new fixture and lay out all the parts on a clean area. Take care not to lose any small parts necessary for installation.
- 3. Adjust the position of each lamp arm. (As shown Fig.2)
- 4. Install the tube (I) assembly into the coupling (J) of fixture body until tight. Thread the tube (H) into the tube (I). Twist the chain loop (G) into nipple and tighten it.
- 5. Attach the mounting strap (A) to the outlet box using outlet box screws (B) (Size: #8-32N*L0.5"). The side of mounting strap (A) with "GND" marked must face out.
- 6. Twist the chain holder (C) into the nipple of the mounting strap (A) and adjust the length of the nipple.
- 7. Determine the desired hanging height and use a pair of proper chain pliers to remove and discard the excess chain.
- 8. Open one end of chain (F) and attach it to chain loop (G) and close the chain (F). Slip the lock collar (E) and canopy (D) over the chain (F) and allow them to rest on the fixture body. Open the other end of the chain (F) and attach it to the chain holder (C) and close the chain (F).
- 9. Carefully lace the fixture's wires through the chain (F). Feed the fixture wires through the chain loop (G), lock collar (E) and canopy (D) assembly.

CONNECTING THE WIRES (Fig.3)

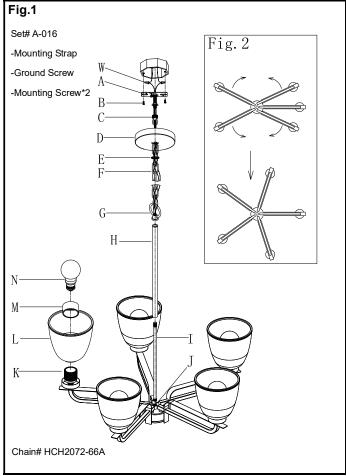

10. At this point, connect the electrical wires as shown in Fig.3, making sure that all wire connectors (W) are secured. If your outlet box has a ground wire (green or bare copper), connect the fixture's ground wire to it. Otherwise, connect the fixture's ground wire directly to the mounting strap (A) using the green screw provided. After the wires are connected, tuck them carefully inside the outlet box.

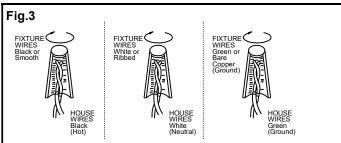

FINISHING THE INSTALLATION (Fig.1)

- 11. Raise the canopy (D) all the way to the ceiling and fix the canopy (D) on the ceiling with loop collar (E).
- 12. Unscrew the socket ring (M) from the fixture socket (K). Position the glass shade (L) onto the fixture and secure in place with the socket ring (M).
- 13. Install (5) five medium base (E26) bulbs (N) up to 60 watts each or CFL or LED equivalent (not included) in accordance with the fixture specification—DO NOT EXCEED THE MAXIMUM WATTAGE RATING! (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!).

Your installation is now complete. Return power and test the fixture.

Note: Illustration (Fig.1) on this manual is for installation purposes only. It may or may not be identical to the fixture purchased.

CHAIN HUNG FIXTURE INSTRUCTION

Notice: It is important to use proper chain pliers (not included) To OPEN and CLOSE the chain included with this fixture. Do not open them with other tools that may twist or stress the chain links. It is important to use proper chain pliers like the ones shown in the diagram.
