Package Contents		
Part	Description	
<b>A</b>	Mounting bracket	1
<b>B</b>	Mounting bracket screws	2
<b>C</b>	Electrical connectors	3
<b>D</b>	Fixture assembly	1
<b>E</b>	Wall anchors	2
<b>F</b>	Wall anchor screws	2
<b>G</b>	Fixture mounting screws	4

### Installing the fixture

*please ensure the electrical breaker is in the Off position before commencing*

- Loosely attach the Mounting bracket (**A**) to the Junction box and mark where the two Wall anchors (**E**) will be placed. Remove the mounting bracket and insert the Wall anchors into their marked locations.
- Attach the Mounting bracket (**A**) to the Junction box using the Mounting bracket screws (**B**) provided. Secure the Mounting bracket to the wall by drilling the Wall anchor screws (**F**) into the Wall anchors (**E**).
- Connect the supply wires to the fixture wires using the supplied electrical wire connectors (**C**). White supply wire to the White fixture wire, Black supply wire to Black fixture wire and the ground Bare Copper or Green wire to the Green fixture wire. Once the electrical wire connectors are securely fastened it is recommended to tape these connectors with electrical tape.
- Secure the Fixture assembly (**D**) to the Mounting bracket (**A**) using the Fixture mounting screws (**G**) provided.
- Seal the Fixture to the wall using a silicon caulk [Provided by others].
- Switch on the electrical breaker switch and your new fixture is ready for many years of trouble free use.

## **Instructions for Outdoor Fixtures and Maintenance Guidelines**

Thank you for choosing an Abra outdoor fixture for your lighting needs. Proper installation and maintenance are essential to ensure the longevity and optimal performance of your fixture. Below are some guidelines to help you get the most out of your luminaire:

### **Regular Cleaning:**

Periodical cleaning is crucial to remove salt, dirt, and other debris that can accumulate on the surface of your light that can cause premature failure of the finish and to avoid the finish becoming marred it is recommended to do the following at regular intervals

- Hose down the fixture with clean water
- If there is a residue build up, gently wash the fixture with dishwash solution.
- Avoid using harsh chemicals that may damage the materials or finish of the fixture.
- Rinse thoroughly with clean water to remove any residue.

### **Inspection and Maintenance:**

Periodically inspect your light to ensure they are in optimal condition. Here's what to look for during inspections:

- Check for signs of corrosion, especially in coastal areas where salt exposure is higher.
- Inspect for loose connections and tighten them if necessary.
- Ensure all seals are intact and re-calk if damaged.

By following these guidelines, you can prolong the durability of your lighting fixtures and ensure they continue to provide reliable and efficient outdoor lighting for years to come. If you have any further questions or concerns, please don't hesitate to contact us for assistance.
