CAUTION

- 1. WARNING!! PLEASE TAKE NOTICE THAT** the suggested maximum pressure and / or temperature **MUST NEVER BE EXCEEDED**, as it may damage and / or cause ruptures and / or leakages and / or even break the product, and present a potential hazard and danger to safety, health and / or property.

Following are the technical data with respect to the installation of Buster and Punch plumbing products.

- Working pressure should not be lower than 0,5 bar (7,25 psi) and not be higher than 5 bar (72 Psi). In case of higher working pressure use a pressure reducer valve.
 - Maximum test installation pressure: 8 bar (116 psi).
 - Avoid major pressure differences between hot and cold water supply. Differences in pressure, water with high mineral content, and soapy substances can corrode the internal and external parts of the hoses and slowly weaken the materials thereby causing leakage.
 - Maximum working temperature for Buster and Punch products is 158°F (70°C).
- 2. WARNING!! PLEASE TAKE NOTICE THAT** the product should never be used as a tool, hammer or for any purposes other than the one it has been designed for.
 - 3. WARNING!! PLEASE TAKE NOTICE THAT** the product should always be installed and tested by a professional plumber.
 - 4. WARNING!!** For product installation, please refer to the **LOCAL PLUMBING CODE**.
 - 5. WARNING!! PLEASE TAKE NOTICE THAT** electric cables should never be attached to the product as they may present a health and safety hazard.
 - 6. WARNING!! PLEASE TAKE NOTICE THAT** heavy objects should never be placed on or dropped on the product as they may damage the same and cause splinters, which may present a health and safety hazard.
 - 7. WARNING!! PLEASE TAKE NOTICE THAT** the instructions manual should carefully read before installation and the installation procedure provided there in must be properly followed and complied with.
 - 8. WARNING!! PLEASE TAKE NOTICE THAT** during installation the use of excessive force should be avoided in order to prevent damage to the product and / or its components and pieces. **NEVER** force a component or piece into another. **NEVER** force screws or over tighten screws.
 - 9. WARNING!!** No one uses aluminum **FITTINGS** for water connections.

MAINTENANCE

- Should it be necessary to replace one or more components, contact an authorized retailer or visit **www.busterandpunch.com**.
- Product maintenance should be made only by qualified staff.
