Bowee W2

ADVERTENCIAS

- Se recomienda que la instalación sea realizada por un profesional.
- Desconectar la conexión a red antes de ser manipulada.
- La fuente de luz de esta luminaria debe reemplazarse únicamente por el fabricante o su servicio técnico, o por una persona cualificada equivalente con objeto de evitar cualquier riesgo.
- Para limpiar la luminaria utilizar un paño suave humedecido con agua y detergente neutro si fuera necesario. No usar alcohol u otros disolventes.
- Para la opción de regulación con Casambi, descargar la aplicación. Para más información ir a la web www.casambi.com

WARNING

- It is recommended that a professional electrician be responsible for installing the light.
- Disconnect power supply before installation.
- The light source of this lamp should only be replaced by the manufacturer, its technical service or a similarly qualified person, in order to prevent risks.
- To clean the luminaire use a soft damp cloth with soap or a neutral detergent. Do not use alcohol or other solvents.
- To use the dimming option with Casambi, please download the app. For more information, visit www.casambi.com.

HINWEISE

- Wir empfehlen, die Installation von einem Fachmann vornehmen zu lassen.
- Unterbrechen Sie die Verbindung zum Netz vor Beginn der Arbeit.
- Die Lichtquelle dieser Leuchte darf ausschließlich vom Hersteller oder dessen technischem Dienst bzw. einer Person mit vergleichbaren Qualifikationen ausgetauscht werden, um jedwedes Risiko zu vermeiden.
- Zur Reinigung der Leuchte empfiehlt es sich, ein weiches Tuch zu verwenden und dieses, falls nötig, mit Wasser und einem neutralen Reinger zu befeuchten. Alkohol oder Lösungsmittel sind zur Reinigung nicht geeignet.
- Für die Anwendung des Licht-Kontroll-Systems Casambi die App herunterladen. Für weitere Informationen besuchen Sie die Webseite www.casambi.com

- Lamps without the IP mark are classed as IP20 and are designed for general interior use, except wet areas (bathrooms, etc.)

- Lamps with the IP mark are designed for exterior use and in wet areas. (E.g. IP54)

- They offer guaranteed protection to people and animals against electrical discharge:

Class I: through single electrical insulation and an earthing conductor once correctly connected.

Class II: through double electrical insulation.

Class III: these kinds of lamps should be connected at very low voltage levels (generally 12V); therefore there is no risk.

- Lamps with this symbol, or without any symbols, can be mounted directly onto normally inflammable surfaces.

- Lamps with this symbol cannot be mounted directly onto normally inflammable surfaces.

- The safety of this lamp is guaranteed by using a maximum wattage bulb that does not exceed the figure displayed visibly on the lamp.

- The product cannot be treated like conventional domestic waste; it must be taken to the corresponding recycling point for electrical and electronic equipment.
