

## Power Feed Connector Cord

The 6 foot long power feed connector cord (included with each Soft Strip) conducts power from a DC transformer to Soft Strip. It connects to the male end of the Soft Strip. The optional 12 foot long power feed connector cord (sold separately) is available for designs requiring a longer cord.

## Canopy Cover & Splice Box

Use for remote located power supply. The 3 inch rectangle or 4 inch round white canopy covers the electrical box and feeds wires for 12V/24V Soft Strip. The Splice Box provides a safe enclosure for low voltage connections. Install within 30 feet of power supply; use up to #10 ga wire to limit voltage drop.

## Micro Switch

The Soft Strip Micro Switch is used behind cabinet doors/drawers; lights turn on when cabinet door/drawer opens.
