

Tom Rossau

TR7 145 Pendant

The TR7 145 pendant has an elongated peanut-shaped form made from finely-honed strips that are fastened in rows and cinched in the middle. The reflection of the illumination that wafts through the textural shade creates warmth, which is a hallmark of Tom Rossau whose Danish roots infuse his work with naturalness. This pendant comes in two versions: natural birch and white PC/Nonwoven paper.
