

LIGHTING THE WAY FOR SIXTY YEARS

---

ASSEMBLY INSTRUCTION MODEL #JAR-2311-AG

---

All electrical components must be installed by a licensed electrician in accordance with the National Electric Code and the appropriate local electrical codes.

You will need 1 -22 Watts LED Module  
Bulb included

THIS FIXTURE IS Damp RATED

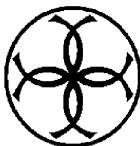

---

How to Install

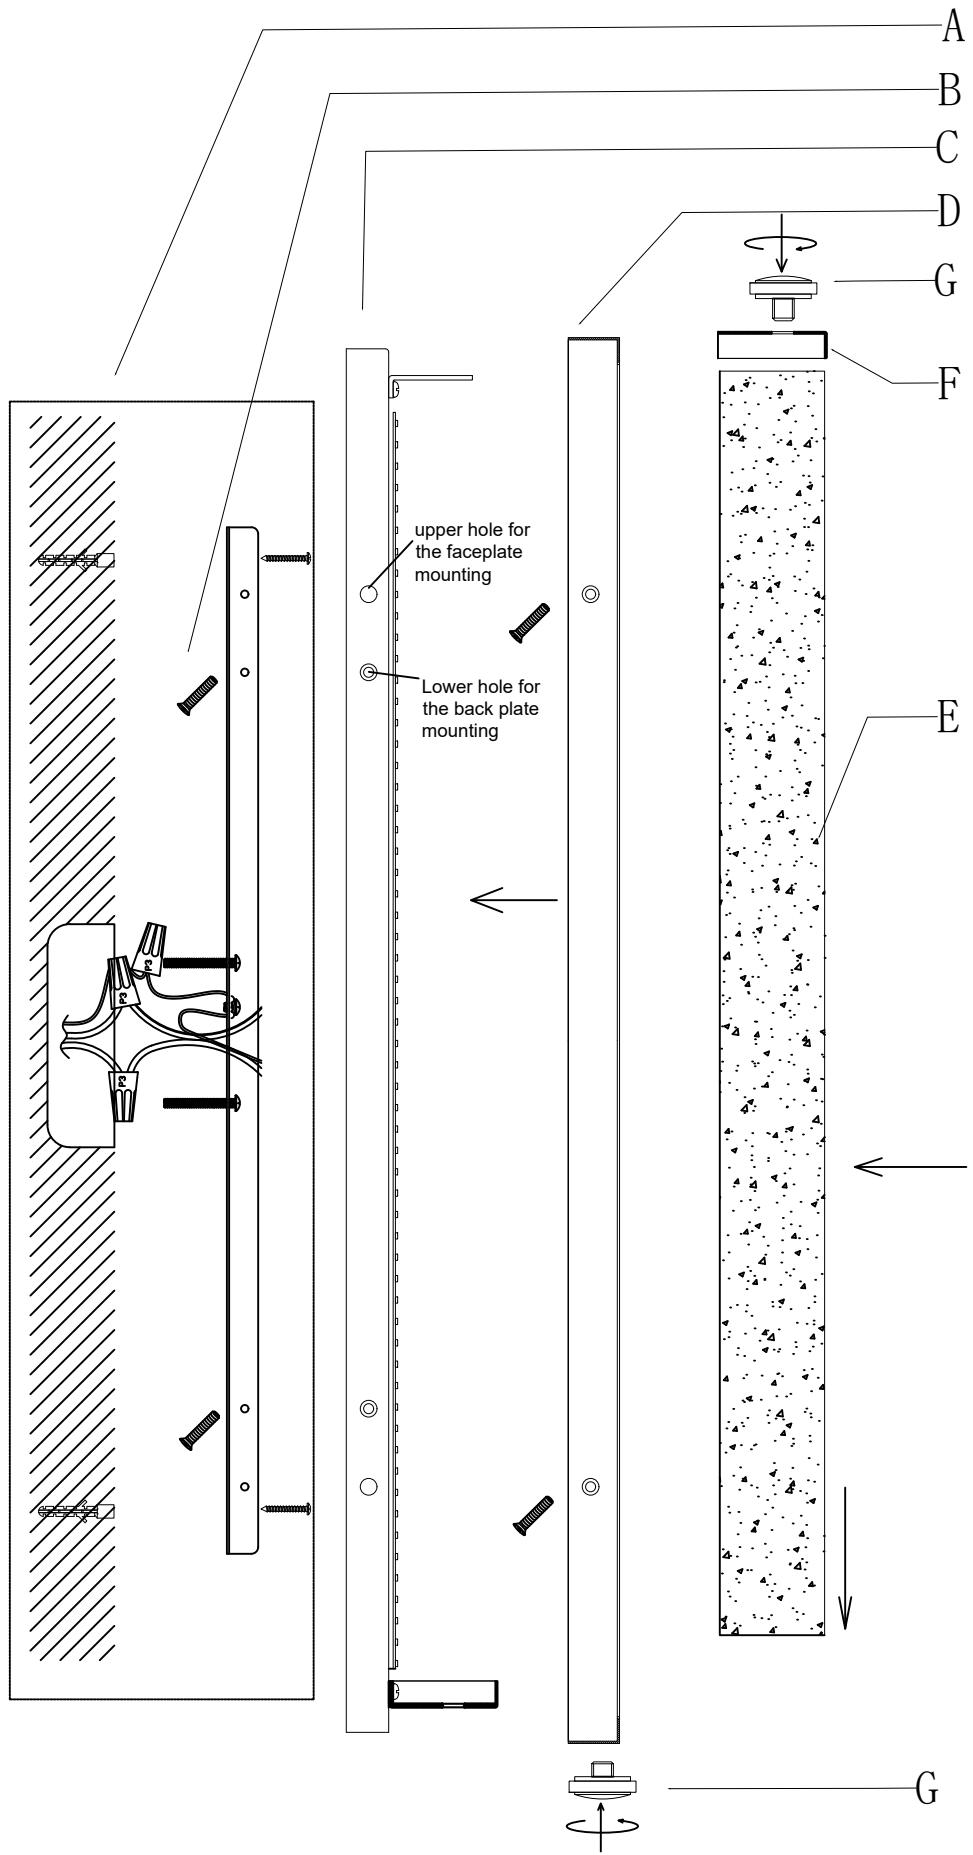

1. Remove the mounting plate from the frame and install it onto the outlet box using the two outlet box screws.
2. Place the backplate over the mounting plate and secure with the screws.
3. Place the face plate over the backplate and secure with screws. Screw the finial back onto the metal holder on the backplate.
4. Slide the alabaster shade over the LED board into the metal holder on the bottom of the backplate. Place the metal cover on the top of the alabaster shade and push it forward through the face plate and touch against the backplate. Secure with the finial.

WARNING: This product can expose you to Lead, which is known to the State of California to cause cancer and/or birth defects or reproductive harm. For more information go to [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)
