

Shown actual size：Maestro dimmer and 1－gang Claro wallplate in White（WH）．

## Product family features

－True multi－location dimming from every location
－Tap on to favorite level；tap off；tap twice for full on
－Touch rocker to adjust light level
－LEDs indicate light level and glow softly in the dark as a locator light
－Delayed off provides light as you exit the room
－Line frequency compensation maintains stable light levels，despite power line frequency and voltage variations
－Programming allows customized functions
－eco－dim®，есо－minderтм and eco－timer models available
－Mechanical air－gap to disconnect load power
－ $100 \%$ factory tested
－Coordinating Claro®，Satin Colors® and Stainless Steel wallplates only available separately
－Custom engraving available for wallplates， see pg． 155

Control types
0 Single－pole（one location）
四回－Multi－location dimming from every location （up to ten locations）

## Direct load type compatibility

\＆Incandescent／halogen lighting
P Magnetic low－voltage lighting
$\%$ Electronic low－voltage lighting
汭 Fluorescent lighting
（3）LED lighting
Ceiling fans
\＄8 Ceiling fan／lights

## Load type requiring load interface

Lighting load interfaces may be applicable for some load type，voltage and capacity combinations． For additional information，see pg． 174.

Stainless Steel wallplate includes black plastic trim/adapter, visible from side. Match with separate Black (BL) or Midnight (MN) controls.

## Dimmers and switches

## Digital fade dimmers

- Tap on to favorite level; tap off
- Tap twice for full on
- Press, hold and release for delayed fade-to-off
- Touch rocker to adjust light level
- Provides true dimming from each location (with companion dimmers)
- eco-dim® model guarantees

eco-mindertм at least $15 \%$ energy savings compared to a standard switch
- eco-mindertm green LED demonstrates 15\% or more energy savings compared to a standard switch
- Dimmer advanced programming features available

## Digital switches

- For multi-location switching, use one Maestro multi-location switch with Maestro companion switches
- Tap switch on/off

## Timers

Countdown timer switches (5-60 minutes/full on)

- Use with exhaust fans to reduce moisture, mold and mildew in bathrooms and kitchens
- Use with lighting
- Tap on to start timer; tap off
- Tap twice for untimed on
- Touch rocker to adjust countdown time
- One minute warning before lights/fan go off
- Top LED is full on with no timer action
- Timer advanced programming features available
- Multi-location control with companion switch

Countdown eco-timer switch (30 minutes)

- Use with exhaust fans to reduce moisture, mold and mildew in bathrooms and kitchens
- Use with lighting
- Tap on to start timer; tap off
- Touch rocker to adjust countdown time
- One minute warning before lights/fan go off
- Timer always turns off
- Single-location only
- Timer advanced programming features available

## Dual devices

Dual dimmers (two loads)

Dimmers (top/bottom)

- Replacement for stacked switches
- Tap on to favorite light level; tap off
- Tap twice for full on
- Touch rocker to adjust light level
- Single-location only
- Dimmer advanced programming features available

Dual dimmer/switch (two loads)

## Dimmer (top)

- Replacement for stacked switches
- Tap on to favorite light level; tap off
- Tap twice for full on
- Touch rocker to adjust light level
- Dimmer advanced programming features available

Switch (bottom)

- Tap switch on/off
- Single-location only

Dual dimmer/countdown timer switch (two loads)

## Dimmer (top)

- Tap on to favorite light level; tap off
- Tap twice for full on
- Touch rocker to adjust light level
- Dimmer advanced programming features available

Timer switch (bottom)

- Tap on to start timer; tap off
- Tap twice for untimed on
- Touch rocker to adjust countdown time from 5-60 minutes
- One minute warning before lights go off
- Top LED is full on with no timer action
- Single-location only
- Timer advanced programming features available

## Advanced programming features include:

| Dimmer advanced <br> programming <br> features | Timer advanced <br> programming <br> features | Sensor advanced <br> programming <br> features |  |
| :--- | :--- | :--- | :--- | :--- |
| Adjusting fade on/ | - Bypass timer option | - Adjust timeout duration | - Sensor sensitivity |
| fade off time | - Locked preset | - Off warning feature | - Auto-on feature |
| Locked preset lighting level (dimmer with <br> occupancy and/or <br> vacancy sensor only)(occupancy <br> lighting level |  | models only) |  |

Maestro advanced programming manual (Application Note \#124) is available at www.lutron.com/applicationnotes.

## Dimmers and switches with sensors*

## Dimmers with occupancy/vacancy sensor

## Dimmer (top)

- Tap on to favorite light level; tap off
- Tap twice for full on
- Touch rocker to adjust light level
- Works with up to nine companion dimmers (MA-R-)
- Dimmer advanced programming features available, see pg. 49

Sensor (bottom)

- Turns lights off to save energy when no one is in the room
- Vacancy models meet California Title 24 Section 119 (j) requirements. Lights are turned on manually and off by the sensor.
- $180^{\circ}$ field of view motion sensor
- Sensor advanced programming features available, see pg. 49

## Companion dimmers and switches

## Companion dimmers

- For true multi-location dimming from every location, use up to nine companion dimmers with only one Maestro® multi-location dimmer
- Use standard single-pole and

## Companion switches

 3-way wiring

- For use with multi-location switches, use up to nine Maestro companion switches with one Maestro multi-location switch
- Can be used with multi-location countdown timer switch
- Use standard single-pole and 3 -way wiring

## Switches with occupancy/vacancy sensor

Switch (top)

- Tap switch on/off
- Works with up to nine companion
switches (MA-AS-)
Sensor (bottom)
- Turns lights off to save energy when no one is in the room
- Vacancy models meet California Title 24 Section 119 (j) requirements. Lights are turned on manually and off by the sensor.
- $180^{\circ}$ field of view motion sensor
- Sensor advanced programming features available, see pg. 49

*For more information on Maestro dimmers and switches with occupancy/vacancy sensor, see pg. 140.

## Fan and fan/light controls

## Digital fan controls

- Multi-location, fan only
- Controls up to four fans
- One canopy module included, order one canopy module (CM-FQ1) for each additional fan controlled, see pg. 57
- 7-quiet fan speeds, plus off
- Designed to prevent motor hum

## Companion fan and fan/light controls

## Companion fan controls

- For use with multi-location control, use up to two companion fan controls with one Maestro digital fan control

## Companion fan/light controls

- For use with multi-location control,

## Dimmer (top)

- Tap on to favorite light level; tap off
- Tap twice for full on
- Touch rocker to adjust light level

## Fan control (bottom)

- Tap on to favorite fan speed; tap off
- Touch rocker to adjust fan speed
- 7-quiet fan speeds, plus off, provide enhanced comfort
- Designed to prevent motor hum

## Canopy modules (fan mounted)

- For use only in multi-fan applications with MA-FQ4FM, see pg. 57
- Order one canopy module for each additional fan controlled
- Use up to three additional fan-mounted canopy modules for up to four fans total (controlled as one group) use up to two companion controls with one Maestro multi-location fan/light control

(Wallplates not included with above, order separately, see pg. 160)

## Dimmers and switches with sensor model numbers

## Incandescent/halogen dimmers with occupancy/vacancy sensor <br> Digital fade dimmer with occupancy/ vacancy sensor**

Multi-location/single-pole MS-OP600M-CC ${ }^{1}$ 120V 600W

Digital fade dimmer with vacancy only sensor
Multi-location/single-pole MS-VP600M-CC ${ }^{1}$ 120V 600W

Not for use with mechanical 3-way or 4-way switches.

## Switches with occupancy/vacancy sensor

Digital switch with occupancy/vacancy sensor*
Multi-location/single-pole MS-OPS5AM-CC ${ }^{1}$ 120V 5A

Rated for: incandescent/halogen, magnetic low-voltage, electronic low-voltage, non-dim fluorescent ballasts, non-dim LED drivers.

Digital switch with vacancy only sensor*
Multi-location/single-pole MS-VPS5AM-CC ${ }^{1}$ 120V 5A
Rated for: incandescent/halogen, magnetic low-voltage, electronic low-voltage, non-dim fluorescent ballasts, non-dim LED drivers.

For more information on Lutron ballasts, visit www.lutron.com/ballasts.
All models must be derated if ganged unless otherwise noted, see pg. 170.
*Requires neutral wire connection.
${ }^{* *}$ Minimum load is 40WNA.

## Switch model numbers

## Switches

## Digital switches

Multi-location/single-pole* MA-S8AM-CC ${ }^{3}$
120V 8A light or 3A fan
Multi-location/single-pole*
MSC-S8AM-CC ${ }^{4}$
120V 8A light or 3A fan
Rated for: incandescent/halogen, magnetic low-voltage, electronic low-voltage, non-dim fluorescent ballasts, general purpose fans and most non-dim LED drivers.

Multi-location/single-pole* MSCF-S6AM-277-CC4 277V 6A light
Multi-location/single-pole* MAF-S6AM-277-CC ${ }^{3}$ 277V 6A light
Rated for: incandescent/halogen, magnetic low-voltage, electronic low-voltage, non-dim fluorescent ballasts and most non-dim LED drivers.

## Timer model numbers

## - Timers

Countdown timer control switch
(5-60 minutes/full on) ${ }^{\star *}$
Single-pole, no neutral required MA-T51-C्C ${ }^{1}$
120V 600W/VA (5A) on/off lighting load (incandescent/halogen, MLV)
OR 3A general purpose fan(s)
Multi-location/single-pole* MA-T51MN-CC ${ }^{1}$
120V 600W/VA (5A) on/off lighting load (incandescent/halogen, MLV, ELV, fluorescent) OR 3A general purpose fan(s)
Use MA-T51MN- with a companion switch (MA-AS- or MSC-AS-) for multi-location switching.

Countdown eco-timer control switch (30 minutes/full on)**
Single-pole MA-T530G-EE ${ }^{2}$
120V 600W/VA (5A) on/off lighting load (incandescent/halogen, MLV) OR 3A general purpose fan(s)

CC $^{1}$ : Gloss and Satin color codes, see pg. 47
$\mathbf{C C}^{3}$ : Gloss color codes, see pg. 47
CC ${ }^{4}$ : Satin color codes, see pg. 47
EE $^{2}$ : Available in White (WH), Ivory (IV), Almond (AL) and Light Almond (LA) (Wallplates not included with above, order separately, see pg. 160)

All models must be derated if ganged unless otherwise noted, see pg. 170.
*Requires neutral wire connection.
${ }^{* *}$ Minimum load is 40WNA.

## Dual device model numbers

Companion switch MA-AS-C्C ${ }^{3}$ 120V
Companion switch
MSC-AS-CC ${ }^{4}$ 120V
Companion switch
MA-AS-277-CC ${ }^{3}$
277 V
Companion switch MSC-AS-277-CC4 277V
No derating required if ganged.

All models must be derated if ganged unless otherwise noted, see pg. 170.
**Minimum load is 40WNA.

## Fan control and fan/light control model numbers

## \$ Fan/light controls

Fan/light control-quiet 7-speed
Single-pole
MA-LFQHW-CC ${ }^{3}$
120V 300W light (top)
Incandescent/halogen
1 canopy module for up to 1 A fan (bottom)
Multi-location
MA-LFQM-CC ${ }^{1}$
120V 300W light (top)
Incandescent/halogen
1 canopy module for up to 1 A fan (bottom)
All above include the necessary wall-mounted fan/light control and one fan-mounted canopy module.
Single-pole model includes wallplate.
Multi-location model may be used with up to two companion fan/light controls (MA-ALFQ35-), see pg. 66. Wallplates sold separately.
No derating required if ganged.

CC $^{1}$ : Gloss and Satin color codes, see pg. 47 (Wallplates not included with above, order separately, see pg. 160)
CC $^{3}$ : Gloss color codes, see pg. 47

All models must be derated if ganged unless otherwise noted, see pg. 170.

## Companion fan and fan/light control model numbers

Companion fan control
Companion fan control MA-AFQ4- $\mathbf{C C}^{1}$
120V
Use up to two wall-mounted companion fan controls with one MIR-FQ4FMT- or MIR-FQ4FMfor multi-location fan control.
No derating required if ganged.
Companion fan/light control
Companion fan/light control MA-ALFQ35-CC ${ }^{1}$ 120V

Use up to two wall-mounted controls with only one Maestro multi-location fan/light control.

No derating required if ganged.
$\mathbf{C C}^{1}$ : Gloss and Satin color codes, see pg. 47 (Wallplates not included, order separately, see pg. 160)

All models must be derated if ganged unless otherwise noted, see pg. 170.

## Accessories

Wallplates

Coordinated electrical devices
Cors more information
about coordinated
Designer electrical
devices, see pg. 163.

## Product family features

- Can be used in conjunction with the following dimmer(s) and switch(es): Maestro®, Maestro IR®, Maestro Wireless®, Рісотм wireless control, Spacer System®, Diva®, Lyneo® Lx, Skylark®, Skylark Contourtm
- All Lutron® wallplates are screwless, seamless and have no visible hardware; the front plate securely snaps into the alignment adapter plate
- Full line of wiring devices in designer style opening
- Blank inserts available for Gloss colors (DV-BI-) and Satin colors (SC-BI-)
- Customize your designer wallplate with engraving, contact customer service to get started at 1.888.LUTRON1

## Ganging and derating

- Designer wallplates use standard ganging
- Requires fins to be removed from dimmers for proper spacing ("Fins Broken" ganging), see pg. 170
- May require derating (i.e., reduction of dimmer capacity due to fin removal), see Derating Tables, pg. 172

| Brown |  |

UL/CSA/NOM regulatory approvals.

## Important notes

- If the hot and dimmed hot feeds to the split duplex HFDU are supplied from different circuits or split-wired with separate switch-legs, a means to simultaneously disconnect these circuits must be provided at the panel board where they originate (NEC 210.7(C) 2002 Edition). A 2-pole circuit breaker or two single-pole circuit breakers with an approved handle tie can be used to accomplish this simultaneous disconnect. Feed-through dimming panels, which are those without breakers, are recommended when using the HFDU.
- Receptacles and plugs for dimming use are UL listed for use with all Lutron® wallbox dimmers included in this catalog.
- If there is only one electrical feed to the receptacle, then the duplex DFDU must be used.
- For detailed information, see Application Notes \#91 (Guide to Dimming Table Lamps) and \#109 (Guide to Dimming Portable Lamps via Receptacles) at www.lutron.com/applicationnotes.
$\mathbf{C C}^{2}$ : Gloss color code and Stainless Steel, see pg. 161
$\mathbf{C C}^{4}$ : Satin color codes, see pg. 161
*Stainless Steel finish only available as separate wallplate. Match with separate Black (BL) or Midnight (MN) controls and accessories.

## Field customizable 6-port frame

- Shipped with six blanks in matching colors
- Connectors and wallplate sold separately
- Connectors snap in (no tools required)
- Connectors available in White (WH), unless noted

*Stainless Steel finish only available as separate wallplate. Match with separate Black (BL) or Midnight (MN) controls and accessories.

## How to understand ganging and derating

## Standard ganging

Ganging is the side-by-side mounting of two or more dimmers or accessory devices under a multi-gang wallplate.
Standard multi-gang installation:

- Uses standard multi-gang electrical backboxes
- Uses standard multi-gang wallplates
- Requires fins to be removed from dimmers for proper spacing ("Fins Broken" ganging)
- May require derating (i.e., reduction of dimmer capacity due to fin removal), see Derating Tables, pgs. 172-173

## Custom ganging for Architectural style controls

For Architectural style dimmers and switches, it is possible to retain the maximum capacity of dimmers in multi-gang applications via custom architectural multi-gang:

- May require customized, wider-thanstandard wallplates
- May require wider-than-standard electrical backboxes
- Allows full capacity ("No Fins Broken") ganging
- Required for Nova® dimmers and for larger width (high capacity) architectural controls
- Visit www.lutron.com/customganging for additional information

Technical notes

- Lighting load interfaces must be matched to load type and voltage
- All load interfaces for dimmed load are controlled by a 120 V 3 -wire fluorescent dimmer
- Power feed to dimmer may differ from lighting load/interface voltage
- Interfaces typically require additional power feeds
- For wiring information, consult wiring diagrams, see pgs. 193-195
- For assistance and additional solutions, consult Lutron Technical Support at 1.800.523.9466 (24 hours/7 days)

Interface mounting

- PHPM interfaces mount to 2-gang electrical backbox (W: 6.30in x H: 5.10 in )
- GRX-TVI enclosure is surface mount only (W:
6.10 in $\times \mathrm{H}: 12.50 \mathrm{in} \mathrm{x}$

D: 3.30 in )
