Care Instructions

Marlow
Drop Leaf Table

Marlow Drop Leaf Table– designed by Matthew Hilton

To prolong the life of the product and retain its appearance and functionality, we would like to give you some relevant information and care advice:

This unit is manufactured with either oak, black stained oak, or walnut.

Craftsmen manufacture this product and there is variety between each unit. This is because wood is a natural product, with natural colour and grain variations.
Natural timber is affected by sunlight; this can cause the wood colour to darken. For this reason (especially if placed in direct sunlight) it is recommended that placing objects in the same position for long periods of time is avoided. This potential colour adjustment becomes less relevant as the product ages.

It is recommended that no abrasive cleaners or solvents are used to clean the unit. Please only use proprietary furniture polishes or alternatively, warm water with a diluted mild detergent.

We thank you for purchasing this product and wish you many years of enjoyable and functional use.

Assembly Instructions
① Take care when lifting the top from the box. It will be heavy, and the leaves will be able to move.
Ensure that holes are aligned before attempting to bolt the table frame and the leg frame together. Rotate the leg frame the opposite way if they are not.

A

B

② Ensure that the legs are in a closed position. Fully tighten A and B together using 2 x Allen key C.

③ (i) Two people should now fold the table into a closed position.

(ii) Turn the table onto its edge.

Ensure that the legs and leaves are secure when moving. Be careful not to use the edge as a pivot when turning.
