

# MINI BEAM

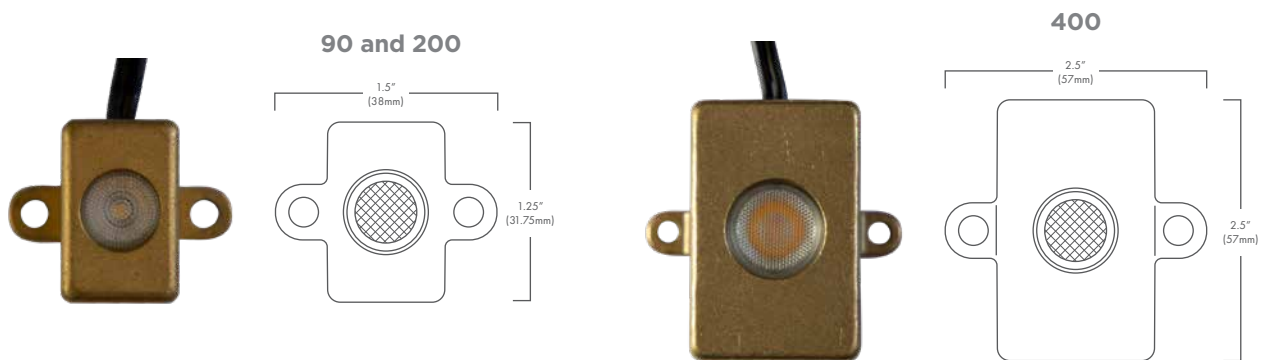

## DESCRIPTION

The Mini Beam is the perfect lamp to bring light to hard-to-reach places, whether under water, in a water feature, under stairs, stone walls, stone lanterns, or any small space. This directional product solves the issue of fitting a fixture and a lamp into a small area. Enhanced ESD (Electro-Static Discharge) protection (IEC-61000-4-2). We recommend using LightingShrink connections for Mini Beams. Dimmable with Brilliance Dimmer and most magnetic transformers.

## MINI BEAM

Use	<b>Fully Submersible in Water Features or Heavy Irrigation Areas Small Spaces that Need Directional Light</b>
