

MOONSETTER

The sculptural floor lamp in chrome-plated aluminum has a rotating disc that allows customization of the reflection of the glare-free light emitted by the LED light source elegantly submerged in the frame. The disc rotates 360° around its own axis and is white on one side and reflective on the other. Tilted towards the white side, the light becomes soft and diffuse, whereas the opposite chrome side reflects the light panel directly for a completely different expression. The light is directed according to the position of the disc. The surroundings are mirrored in the frame and the chrome side of the disc. The lamp offers stepless dimming and is turned on and off by the rotating footswitch on the cylinder.

Product info

Information
Electrical: System Wattage: 19W LED Wattage: 18W Certifications: cULus, Dry Location Protection class IP20
Controllability: Continuous dimming to off by dial switch on cylinder. Color Rendering: Ra≥90

Mounting
Cable type: Black PVC. Cable length: 8'. LED-driver: Separate, plugs into power outlet. Light control: dial on cylinder of frame. Continuous dimming to off.

Finish
High lustre chrome-plated. Disc: High lustre chrome-plated on one side and white, wet painted on the opposite side.

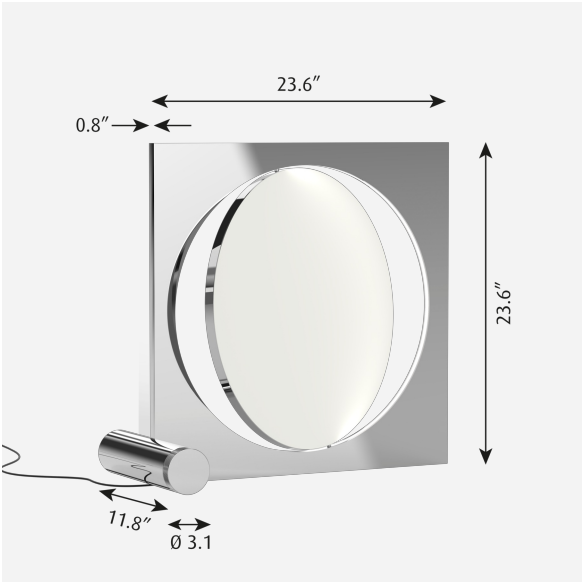

Materials
Frame: High lustre chrome-plated solid cast aluminum. Cylinder and switch: High lustre chrome-plated extruded aluminum. Disc: Solid cast aluminum. High lustre chrome-plated on one side and white on the opposite side. Opal silicone diffuser.

Sizes and weight
Width x Height x Length (in.) | 11.8 x 23.6 x 25.2 Max 44.1 lbs

Compliance
cULus, Dry location.

Light source
LED 3500K 16W

Product description

The sculptural floor lamp in chrome-plated aluminum has a rotating disc that allows customization of the reflection of the glare-free light emitted by the LED light source elegantly submerged in the frame. The disc rotates 360° around its own axis and is white on one side and reflective on the other. Tilted towards the white side, the light becomes soft and diffuse, whereas the opposite chrome side reflects the light panel directly for a completely different expression. The light is directed according to the position of the disc. The surroundings are mirrored in the frame and the chrome side of the disc. The lamp offers stepless dimming and is turned on and off by the rotating footswitch on the cylinder.

Mounting

Cable type: Black PVC.
Cable length: 8'.
LED-driver: Separate, plugs into power outlet.
Light control: dial on cylinder of frame.
Continuous dimming to off.

Light description

Indirect lighting effect is achieved through the LEDs housed around the circular opening and reflected off of the disc. Disc rotates 360° manually, with one side painted white and the other side is chrome-plated.
