## 24VDC, DO-IT-YOURSELF PLASTER-IN LED SYSTEM

DESIGNED BY GREGORY KAY | MADE IN AMERICA | PATENT PENDING

REV 11.13.25

### DESCRIPTION

PureEdge's latest addition to the 24VDC, 5/8" plaster-in family of products features a true Knife Edge profile with no visible sightline of the asymmetric lens or light blocker, delivering a seamless, uniform visual field across adjacent surfaces—install with a curved wall to ceiling, an effect reminiscent of the Ganzfeld phenomenon (Fig.2, pg 2). It's ideal for architectural, soffit, light cove, and accent lighting, engineered to support 1/2" or 5/8" thick drywall on the underside or mount directly to the wall. Our Knife Edge is a bold evolution of the 5/8" plaster-in system pioneered by PureEdge Lighting. Merging form and function, it introduces a clean, modern profile that elevates both residential and commercial spaces, giving you the freedom to design distinctive, one-of-a-kind environments. Coordinate installation with electrical and drywall contractors. Includes a 5-year pro-rated warranty. Material: extruded aluminum, White RAL 9010 powder coat. Includes a 5-year pro-rated warranty. For custom quotes and layout assistance, send drawings to [design@PureEdgeLighting.com](mailto:design@PureEdgeLighting.com). Designed by Gregory Kay.
