PDW-100W-DIM-48VDC-WH

DESCRIPTION

Power Dim 2-in-1 is a dimmer with an integrated LED driver that converts 120VAC to low-voltage 48VDC (up to 96W). Designed for installation in a standard single-gang electrical box, it eliminates the need for separate remote drivers, simplifying installation to provide an option that is as cost-effective as it is time efficient.

PureEdge Lighting's Power Driver combines an ELV dimmer and driver in a single, wall-mounted unit.

Kit includes driver/dimmer, faceplate, and mounting hardware.

The integrated design delivers smooth, flicker-free dimming and avoids driver/switch compatibility issues. Features soft start and built-in short-circuit, overload, and thermal protection. Indoor use only.

For custom quotes and layout assistance, send drawings to design@PureEdgeLighting.com.
