

# MTR48 MICRO RECESSED TRACK

48VDC CLASS 2, SINGLE CIRCUIT, 1/2" OR 5/8" DRYWALL

10° lens for Teeny and Slim

## DESCRIPTION

MTR48 is a 48-volt, plaster-in recessed track system engineered to sit flush within 1/2" drywall ceilings or walls. Its patented Micro Track design ensures seamless integration with drywall surfaces with no joist modification required. To maintain a clean, architectural appearance, each track in black or white includes a matching slot cover that conceals the channel, leaving only the track heads visible after installation. For custom quotes and layout assistance, send your drawings and ideas to our design team: [design@PureEdgeLighting.com](mailto:design@PureEdgeLighting.com).

## FEATURES

- Track Heads easily attach to the track and adjust, tilt, and rotate using a small screw driver to lock into place
- Designed for use with 2 x 96W 48VDC Universal Remote Power Supplies up to 40' away
- Power Feeds offered with end and center feed, L-connector options, up to 96 Watt power supply before re-feeding, and two 96 watt power supplies with center feed on the same line as voltage circuit
- Recessed Channel is available in 4' (44") and 8' (92") lengths, with the ability to be cut in the field
- Opaque Plastic Slot Cover is included with channel concealing slot, and may be painted to match the ceiling
