INSTALLATION ACCESSORIES

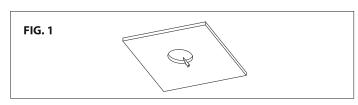

- 1. At the point of installation, cut a 3 5/8" round hole for a round or square trim (See **FIG. 1**).
- Pull building supply wires through ceiling cutout and open fiture junction box door (See FIG. 2).
 Remove desired housing knockout and feed building wires into housing using appropriate connector.
- Connect fi ture wires to building wires: insert each supply wire
 into appropriate junction box connector. This fi ture features
 electronic low voltage (ELV) or 0-10V dimming capabilities. To
 utilize ELV, wire black (line hot), white (line neutral), and green
 (ground) in accordance to dimmer specific tions.

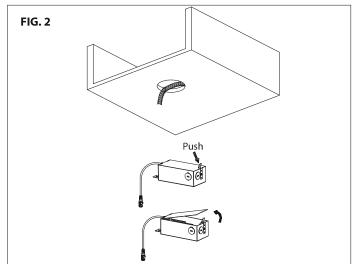

To utilize 0-10V dimming, wire purple (dim+), pink or gray (dim-), black (line hot), white (line neutral) and green (ground) in accordance to dimmer specific tions.

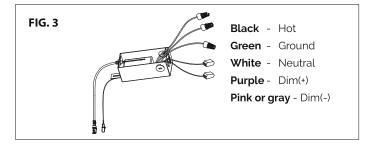

When not using a dimmer, connect black fiture wire to hot, white fiture wire to neutral and green fiture wire to ground. Leave all other wires capped individually (See **FIG. 3**).

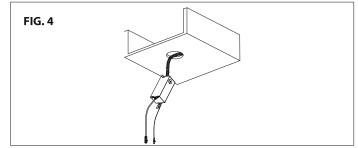

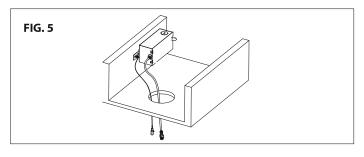

5. Guide junction box through the cut hole and secure appropriately using the external key hole (See **FIG. 5**).
