

AXIS SHELVING SYSTEM

It is a modular system consisting of shelves and rods of different sizes. The system stands thanks to 2 or 3 axis in which you can alternate different shelves, providing strength and flexibility to the structure at the same time. It's a very versatile collection that allows installation in any position, with only 2 or 3 wall fixing points.

MATERIAL

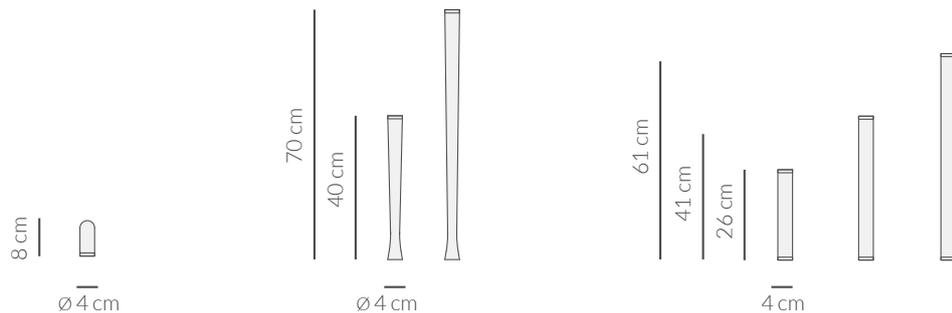

Rods & terminals: Natural solid walnut with brass finished metal details.

Shelves: Natural walnut veneered MDF wood.

Wall anchorage and bases: Brass finished metal.

Manufactured in Spain following artisanal methods.

1. Terminal
2. Rods
3. Shelves
