

Design Poul Henningsen

Light source	Voltage	Weight	Electric shock protection	Ingress protection
1/26W LED ONLY/A-23/ medium base 	Max 120V	Max 12,2 Lbs	Cl. I	IP20

Recommended cleaning substances:
Wipe off dust with a dry, soft cloth. Remove greasy spots etc. with a soft cloth dampened in lukewarm water (<122° F/ 50° C) with a mild detergent.

Warning: Scouring powder and similar substances will scratch surfaces.

Glass in specific:
Must be cleaned in cold condition. All water must be evaporated before the lamp is lit again.
The metal surfaces are raw and untreated, and will become darker and less shiny on coming into contact with carbon dioxide and other airborne substances. Therefore, as soon as you open the packaging, you may notice areas of the polished surface which might have already developed a patina.
If you prefer not to have a patina, it can be removed with a polishing agent, so that the surface appears bright and shiny. Follow the product instructions.

All installation is subject to local code and jurisdiction.
Consult a qualified electrician to ensure correct branch circuit conductor.
The installer must ensure that the ceiling can support the luminaire's weight. The installer must if necessary reinforce the ceiling structure by adequate means.

Louis Poulsen A/S disclaims any liability if a half mirror light bulb is used. This type of light source reflects the heat and may damage/melt parts of the fixture.
