IMPORTANT SAFETY INSTRUCTIONS:

- *These instructions are provided for your safety. It's important that they are read completely before beginning installation of fixture.
- *If any special control devices are used with this fixture, follow the instructions carefully to assure full compliance with N.E.C. requirements. If there are any questions, contact a qualified electrical contractor.
- *We strongly recommend installation by a licensed electrician. NOTE: This item can NOT be hung on a vaulted or sloped ceiling.

ASSEMBLY INSTRUCTIONS:

****SHUT OFF ELECTRICAL SUPPLY AT CIRCUIT BREAKER****

1. Remove all parts carefully from the carton. Arrange bags containing glass parts according to the row number labeled on the outside of the bag. Do not throw away any parts.
2. Remove mounting plate (B) from canopy (F) by removing finials (G).
3. Lift mounting plate (B) to the ceiling outlet box. Once aligned in the desired position, use a pencil to mark the locations of mounting holes (D) on the outside edges of the mounting plate.
4. Set the mounting plate aside and drill small holes at the marked locations. Holes should be sized so anchors (L) can be threaded securely inside.
5. Thread anchors (L) into the holes. Lift mounting plate (B) to the ceiling. Pull the wires from the outlet box through the center of the mounting plate. Attach mounting plate (B) to ceiling outlet box using screws (E). Thread screws (M) through holes (D) and into wall anchors (L) for additional support in attaching the mounting plate to the ceiling.

6. Attach the exetensions to the canopy.

****TO ADD EXTENSIONS:** Thread the nipple of one extension into the opening of the next extension.

Make sure electrical cord is pulled tight when threading extensions together to prevent damage to the wiring. **

7. Thread bottom extension (K) onto threaded tube (J).
8. Lift canopy (F) to mounting plate (B) and make proper electrical connections in steps 9-11.
A LICENSED ELECTRICIAN IS RECOMMENDED.
9. Attach ground wire from fixture (green or silver in color) to ground wire from outlet box. Fasten wires together with wire nut (A). Wrap connection with electrical tape.
10. Attach hot wire from fixture (black in color or smooth side of wire) to hot wire from outlet box. Fasten wires together with wire nut (A). Wrap connection with electrical tape.
11. Attach neutral wire from fixture (white in color or ribbed side of wire) to neutral wire from outlet box. Fasten wires together with wire nut (A). Wrap connection with electrical tape.
12. Carefully push wire connections back into ceiling outlet box. Slide canopy (F) over mounting plate (B). Threaded tubes (C) will protrude through canopy (F). Attach finials (G) to threaded tubes (C) to secure canopy to ceiling.
13. Install 3-100W max., Type A, medium base bulb into sockets (I).
14. Carefully hang the glass pieces on the canopy. NOTE: The bags containing glass pieces are labled with a row number that corresponds to a row of hooks on canopy (F). See Figure 1 for row placement on canopy (F). Remove glass piece from bag. Hang the glass piece by placing the end loop of chain onto hook (H) in the corresponding row.
15. Row 1, the longest chains (6 total), should be placed on two innermost rows of hooks surrounding sockets (I).
16. Row 2, the second to longest chains (12 total), should be placed on the two rows of hooks surrounding Row 1.
17. Row 3, the third to longest chains (16 total), should be placed on the two rows of hooks surrounding Row 2.
18. Row 4, the shortest chains (20 total, single piece of glass), should be placed on the outermost row of hooks surrounding Row 3.
19. Once glass pieces stop moving it will be necessary to carefully rotate them into the desired positions.
20. Reconnect power and test fixture.

** To clean, use soft cloth only. Do not use any chemical or abrasive cleaners. **
