# Tabata LN10

## Luca Nichetto

### 2022

Please read these instructions carefully and retain them for future reference to ensure that the product is used correctly. For your own safety, please study each step of this instruction manual first. &Tradition is not responsible for any faults or damages caused by not following these instructions correctly. Do not modify this product in any way.

#### Contents

- A Tabata lamp
- B Wall bracket
- C Allen key

#### Tools needed

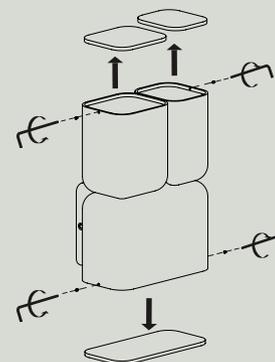

- 4 x GU10 light bulb
- Screwdriver

#### Safety precautions

- Dispose of plastic bag from packaging and do not allow children to play with it.
- Keep product well out of children's reach.
- The lamp is only intended for interior use.
- Consult a professionally qualified electrician if in any doubt.
- Do not place the cable within reach of small children or anywhere with a risk of falling over it.

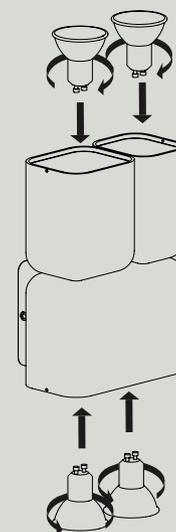

#### Cleaning instructions

- Wipe surface of lamp shade with a soft, damp sponge or cloth.
- Do not use any abrasive cleaning tools such as steel wool, scouring sponges or stiff brushes.
- Never use strong cleaning agents such as white spirit, turpentine, household glass cleaner or cellulose thinners.
- Only wipe the inside of the shade with a soft, damp cloth or feather duster.

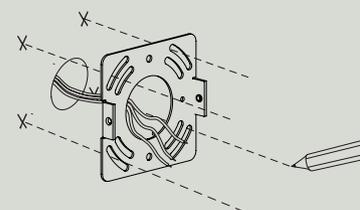

#### Step 1

To install light bulbs please use the Allen key to unscrew the small screws on the side of the shade and lift off the diffuser.

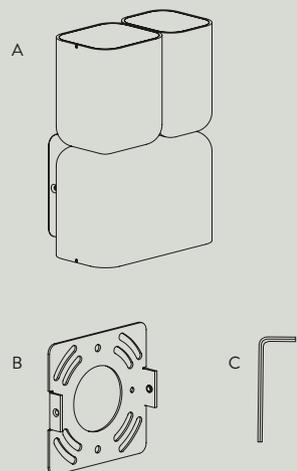

#### Step 2

Install the light bulbs and remount the diffusers. Be sure to install the matt side of the diffuser facing outwards.

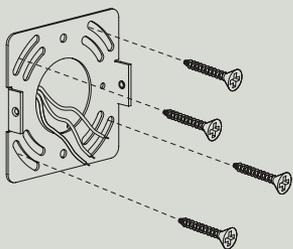

#### Step 3

Place the wall bracket on top of a spirit level in the desired location of the lamp. Ensure the bracket is levelled and mark the placement of the holes with a pencil.

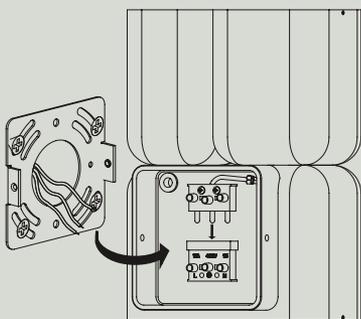

For indoor use only  
Maximum 5W (only LED)  
GU10 bulbs not included

#### Step 4

Drill holes for the bracket and use a suitable screw and plug for the desired wall the lamp is to be installed on. Tighten the screws and ensure the bracket is safely fixed.

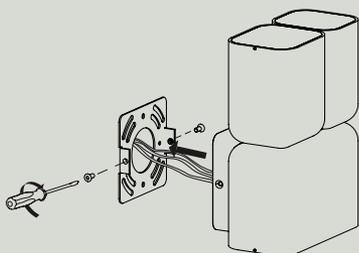

#### Step 5

Install the wires from the outlet into the terminal connector by pulling out the bottom part of the terminal connector for easier installation.

Connect the blue supply wire to the fixture marked 'N'.  
Connect the brown supply wire to the fixture marked 'L'.  
Connect the yellow/green wire to the fixture marked  $\oplus$ .

Reconnect the bottom part of the terminal when finished.

#### Step 6

Place the lamp carefully on the wall bracket. Insert and tighten screws to fix the lamp to the wall bracket.
