PAPER MOON LANTERN
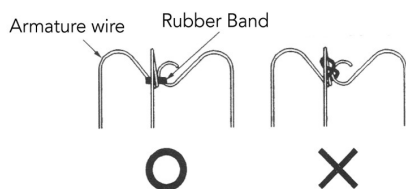

**PM-01
PM-02
PM-03
PM-04**

1. Erecting the armature

● The paper moon comes in four different sizes. To find out which model you have, look on the outside of the box the lantern came in, Your model will determine the placement of the armature into the baseplate.

Model #	PM-01 PM-02 PM-03	PM-04
Armature wires	3	4
Armature wire placement		

● Gently snap the armature wire into the baseplate into the locations described above. Please try and not bend the wire as it will alter the structure of the lamp.
