1. The wooden cover passes through the lamp body component nipple and is fixed with a finial. The power cord is fixed on the with a screw.
2. During the whole assembly, please handle the wood slots very gently and with extreme care to avoid any risk of breakage.
3. Connect fixture wires to supply wires using wire nuts. Observe polarity: black to power, white to neutral, and bare copper to green ground. Tuck wires and wire nuts into outlet box. Fasten the canopy to the ceiling with Flat Screw.
4. Note: Individual cord adjustment system allows height to be customized by pressing the locking pin at the canopy, pulling or feeding the cord to the desired length, and releasing to secure in place.
