Read these instructions carefully before installing this fixture.

This product is intended for installation in accordance with the National Electrical Code (NEC) and local code specifications. Failure to adhere to these codes and instructions may result in serious injury and/or damage to the fixture and will void the warranty. These instructions do not purport to cover all details or variations in equipment, nor to provide for every possible contingency related to installation, operation, maintenance, or mounting situation. Should specific instances occur that are not covered by these instructions, contact your distributor for assistance. Retain these instructions for future reference.

Installation Instructions

1. Remove the nut from each bracket.
2. Place the brackets on the LLL Linelyte fixture as shown in the photo above, with the bracket extending out on the same side as the fixture cable, and the threaded stud going through the keyslot into the fixture.
3. Thread the nuts onto the studs inside the fixture.
4. Lay the fixture cable in a slot between two blocks.
5. Place the cap stone on top of the brackets to hold the fixture in place.
6. Wire the fixture according to the directions on the fixture instruction sheet.
