- Do not make or alter any open holes in an enclosure of wiring or electrical components during kit installation.
- Please retain these instructions for maintenance reference.

Installation Instructions:

1. Remove clear film from lens
2. Make sure power is off. **NOTE:** The orange connector between the screw-in socket and LED unit is not intended to support the weight of unit. Please support unit at all times.
3. If the housing that you intend to put the retrofit into has a socket plate holding the socket, please ensure you remove the plate from the socket to provide extra room for the retrofit.
4. Remove NI0-2 from its packaging.
5. Twist and screw the LED module onto desired trim.
6. Connect the connector of the LED module to the connector of Nora's housing.
7. Squeeze friction blades towards unit and install into recessed housing.
8. Carefully route wires into fixture and push module up flush to ceiling surface.
9. Turn power back on.

IMPORTANT: Do NOT plug module directly to A/C. Module must have a driver to operate; D/C Input.
