

Patrona Suspension

700PTNA_ 1.1

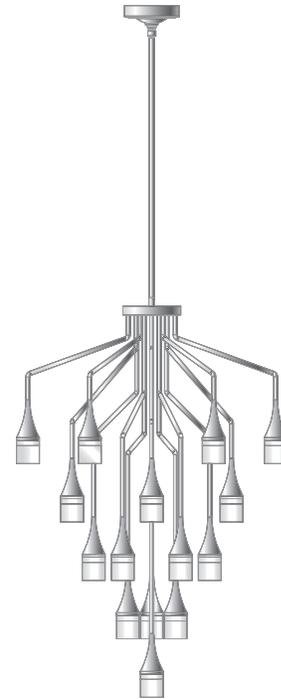

GENERAL PRODUCT INFORMATION:

This product can mount to either a 4" square electrical box with a round plaster ring or an octagon electrical box.

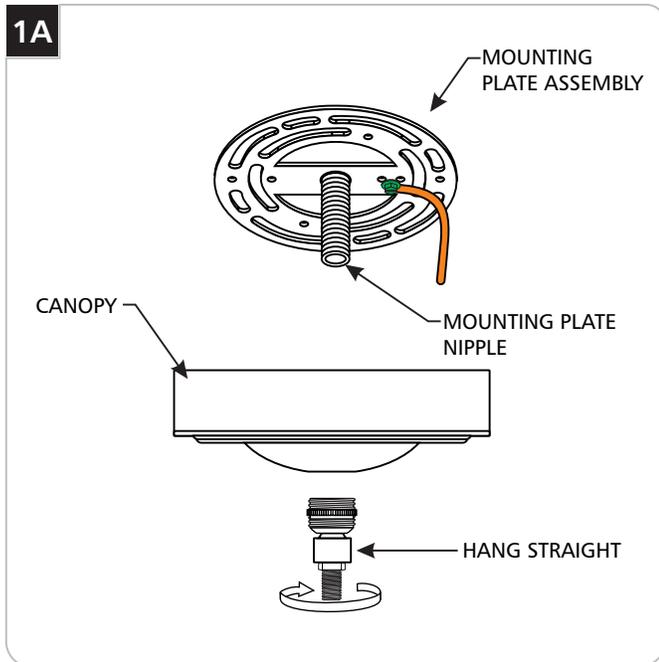

This product is suitable for damp locations.

This instruction shows a typical installation.

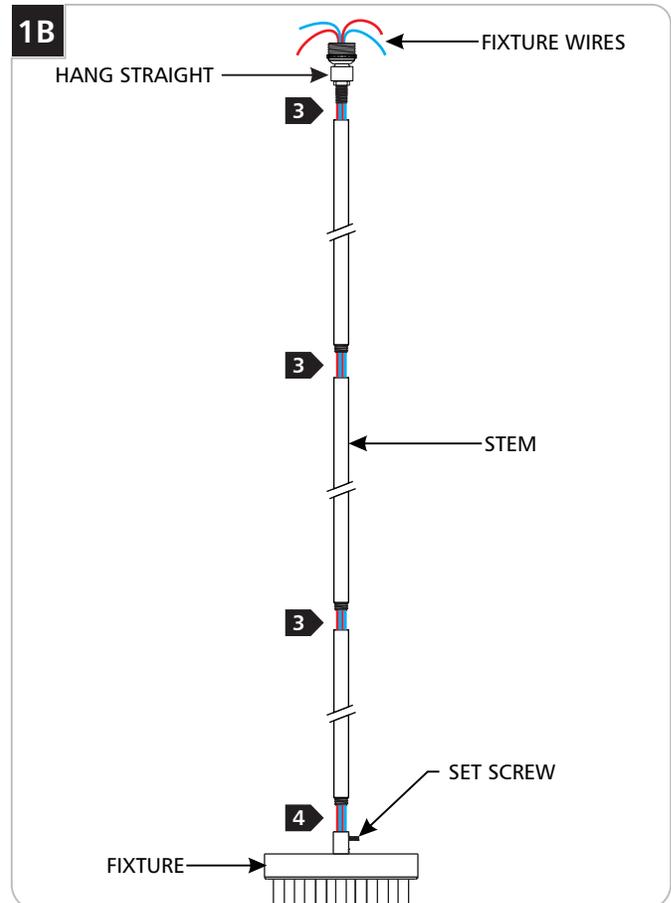

NOTE: It is recommended that the fixture remain in the shipping box until it is fully assembled and ready to install to the electrical box.

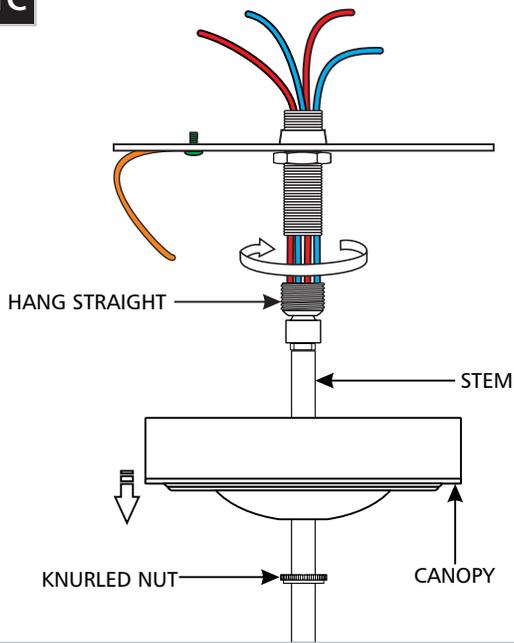

Assemble the Fixture

- 1 Separate the mounting plate assembly from the canopy by unscrewing the hang straight from the mounting plate nipple.

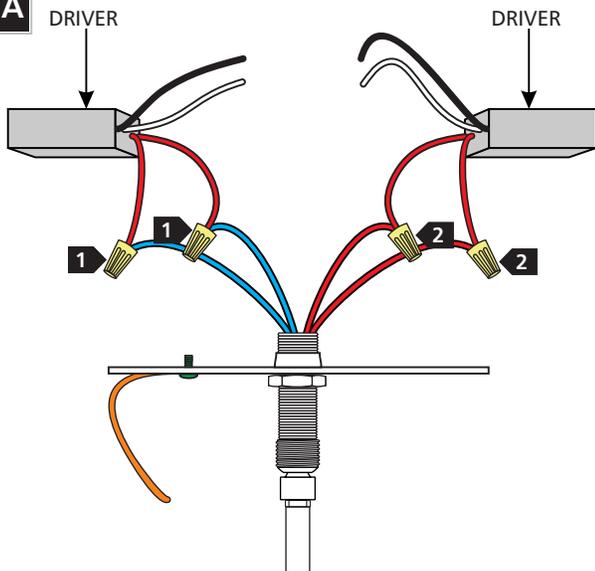

- 2 Loosen the set screw at the top of the fixture.
- 3 Feed the fixture wires through the stems and hang straight and assemble them by screwing them together.
- 4 Screw the stem assembly to the fixture and re-tighten the set screw.

1C

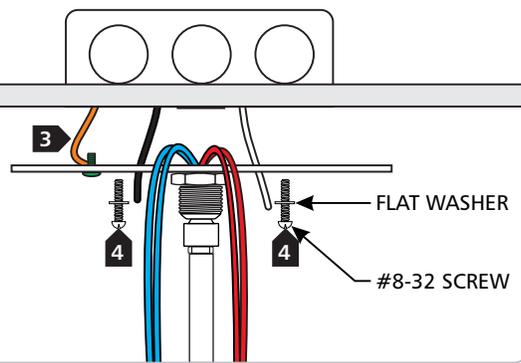

- 5** Unscrew the knurled nut from the hang straight and slide the knurled nut and canopy down the stem.
- 6** Feed the fixture wires through the mounting plate nipple and screw it onto the hang straight.

Install the Fixture

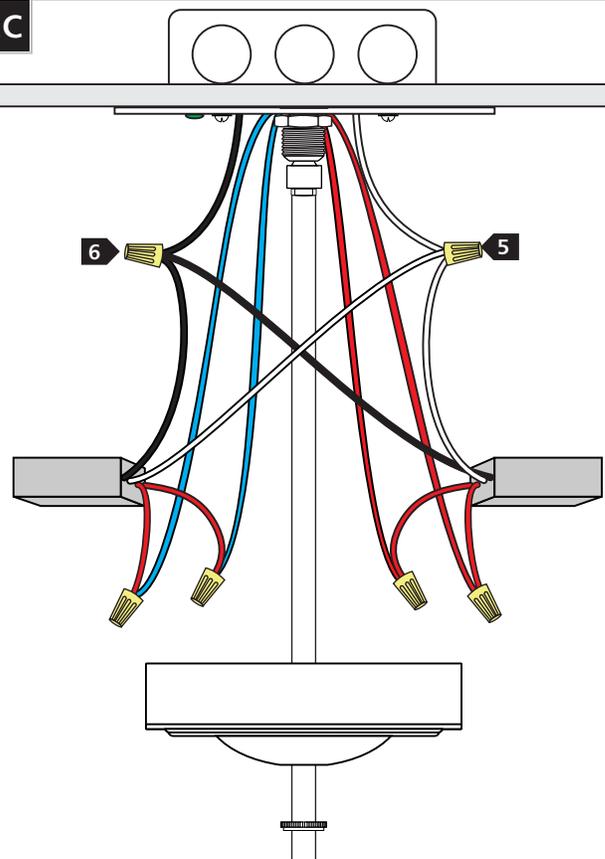

NOTE: It is recommended that one person hold the fixture while the electrician connects the power and finishes the installation.

2A

- 1** Connect the red driver wires from one driver to the blue fixture wires with a wire nut.
- 2** Connect the red driver wires from the other driver to the red fixture wires with a wire nut.

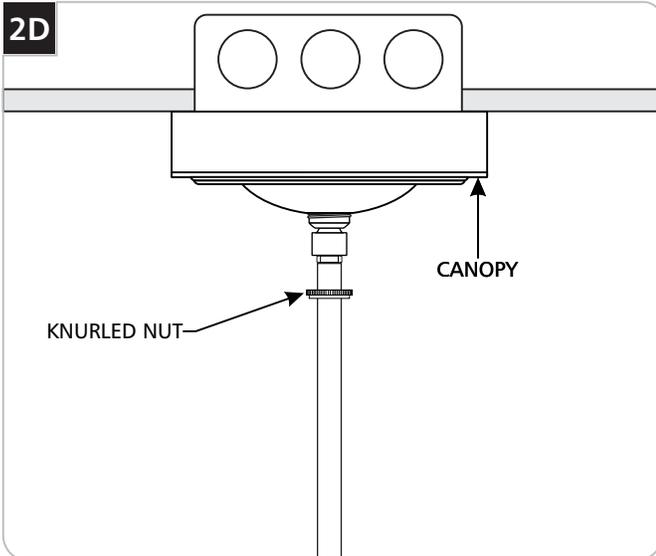

2B

- 3** Ensure the fixture is grounded in accordance with local electrical codes.
- 4** Mount the fixture to the electrical box with the two provided flat washers and #8-32 screws.

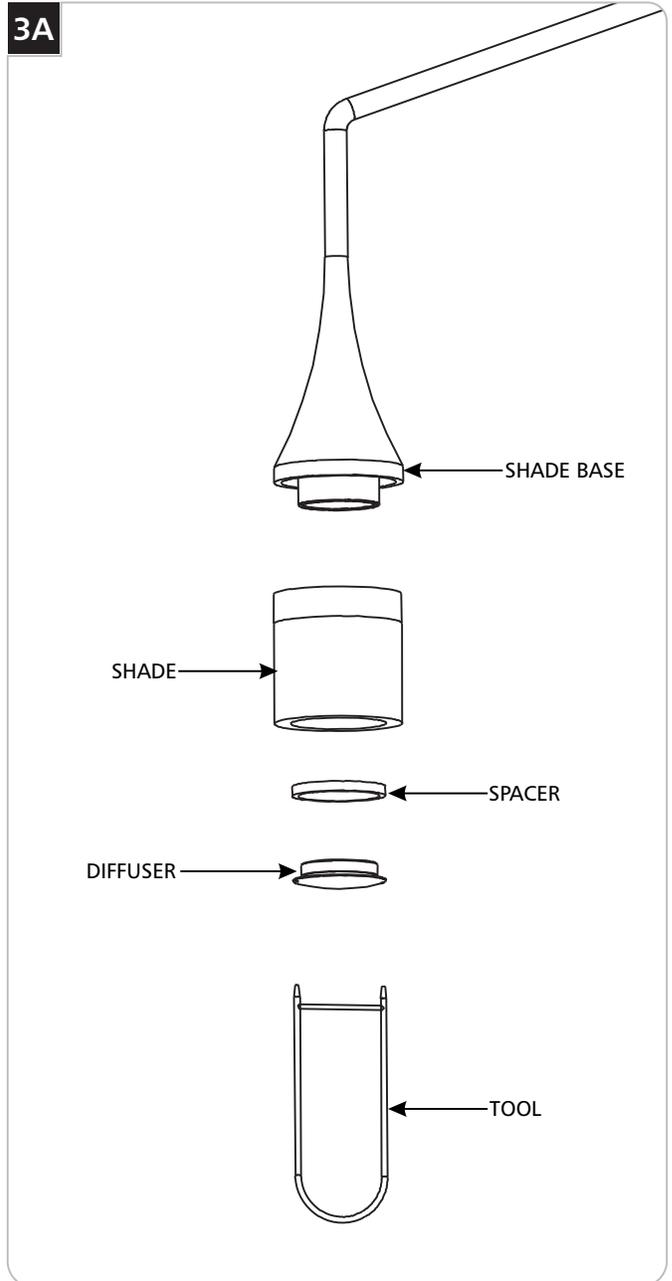

2C

- 5** Connect the white driver wires to the neutral power line wire with a wire nut.
- 6** Connect the black driver wires to the hot power line wire with a wire nut.

Install the Shades

- 7 Place the drivers, all wires, and wire nut connections properly inside the canopy, place the canopy flush onto the ceiling, and secure it by reinstalling the knurled nut.

- 1 Place the shade, spacer, and diffuser into the shade base, then secure them in place by screwing the diffuser into the shade base using the tool. Repeat for remaining shades. **Do not over tighten, over tightening can cause the glass or tool to break resulting in injury.**
