

WALL COLLECTION

GENERAL PRODUCT INFORMATION:

This product is suitable for damp locations.

This product can mount either to a 4" square electrical box with a round plaster ring or an octagon electrical box.

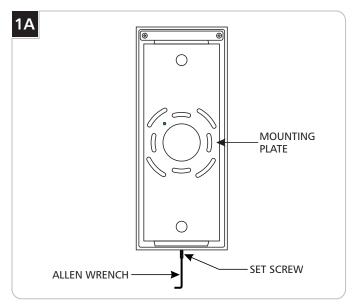

This instruction shows a typical installation.

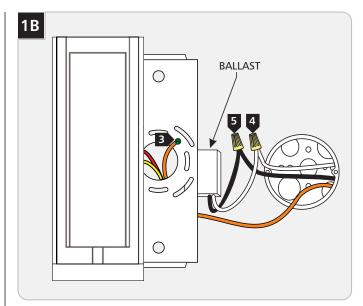

This product requires installation by a qualified electrician. Before installing be sure to read all instructions and DISCONNECT POWER TO THE ELECTRICAL BOX.

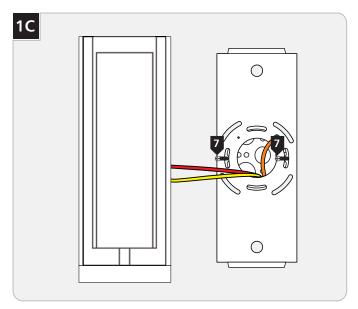

Install the Fixture

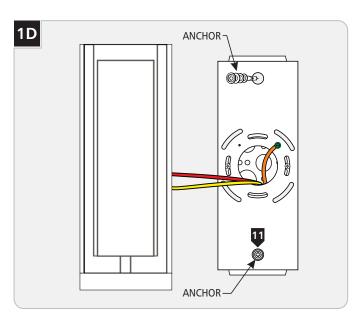

- With the Allen wrench provided, back out (do not fully remove) the set screw at the base of the fixture.
- Remove the mounting plate from the back of the fixture.

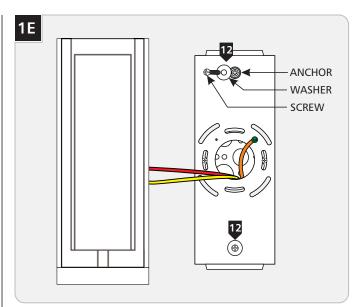

- Connect the mounting plate ground wire to a suitable ground according to local electrical codes.
- 4 Connect the white ballast wire to the neutral power line wire with a wire nut.
- Connect the black ballast wire to the hot power line wire with a wire nut.

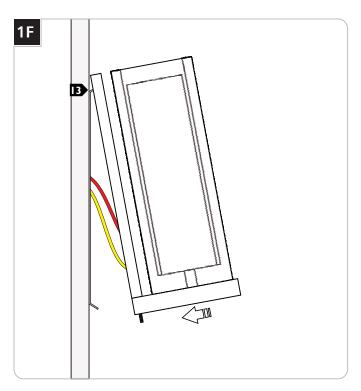

- 6 Properly place all wires, wire nut connections, and the ballast inside the electrical box.
- Level the mounting plate and secure it to the electrical box with the two #8-32 screws provided.

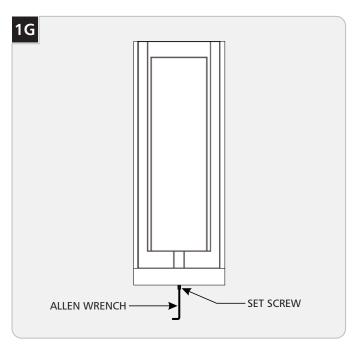

- 8 Verify that the mounting plate is level before continuing.
- 9 Line an anchor tip with the center of an anchor hole, and push the anchor into the wall up to the threads.
- Screw the anchor in the rest of the way with a Phillipshead screwdriver.
- 11 Repeat for the other anchor hole.

12 Slide a #8 screw through a washer, and screw it into an anchor to secure the fixture base to the wall. Repeat for the other anchor.

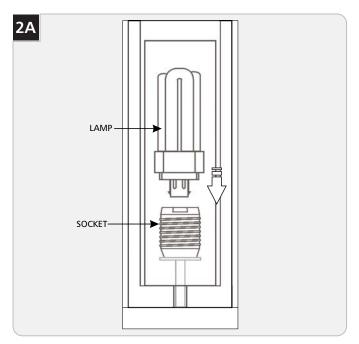

Hook the top of the fixture to the top of the mounting plate and swing the bottom of the fixture toward the plate until it is flush with the wall.

14 With the allen wrench, tighten the set screw at the bottom of the fixture to secure it to the mounting plate.

Install the Lamp

CAUTION: To reduce the risk of a burn or electric shock during relamping, disconnect the power to the fixture.

Use **MAX** 32 Watt GX24Q-3 Base Triple Tube Compact Fluorescent Lamp.

1 Push the lamp base into the socket.
