

LOW - VOLTAGE HEADS

Tele Head T20

DESCRIPTION

The Tele Head display by Tech Lighting is clean and simple featuring an adjustable arm length and adjustable angled head. This practical and incredibly functional display head make the Tele Head an ideal solution for illuminating art, photos or even task lighting. This highly functional display head is extendable from 9" - 25" and features a gently curved neck allowing for a full spread of light. Complementary accessories include colorful glass shields, barn doors and Louver Lens holders all of which further enhance the performance and aesthetic of this display head. The Tele Head is available in two contemporary finishes Antique Bronze and Satin Nickel and accommodates a fully dimmable 12 volt MR16 lamp (sold separately). For a list of compatible dimmers please refer to dimming chart for more information. Head rotates 360°, swivels 130° at the bracket, and the lamp rotates 290°. Low-voltage, MR16 lamp of up to 75 watts not included).

INSTALLATION

Socket terminates with FreeJack male connector, which may be installed into a system connector. Elements ordered with a system prefix include a connector for that system.
