

BATH COLLECTION

Span Bath LED T20

DESCRIPTION

The Span wall and bath fixture by Tech Lighting is ultra-thin and ultra-contemporary with its streamlined light bar and minimalist design. This sleek bath bar is made possible through the use of integrated edge-lit LED technology. What appears to be a simple plate of frosted acrylic when off, is magically illuminated across the entire surface once turned on giving the appearance of light coming out of thin air. Each Span bath fixture can be mounted horizontally above a mirror or mounted vertically flanking a mirror as a wall sconce. Three length options allow this bath light to be adapted to powder room lighting as well as master bathroom lighting and each are fully dimmable to help create the desired ambiance in your special space. For a list of compatible dimmers please refer to dimming chart for more information. 2' version includes 26 watt, 1215 delivered lumen. 3' version includes 39 watt, 1820 delivered lumen, 4' version includes 52 watt, 2430 delivered lumen, 3000K LED module. Dimmable with low-voltage electronic dimmer. Mounts horizontally or vertically. Direct or Direct/Indirect (50/50) light distribution options.

WEIGHT

2.93-2.93lb / 1.33-1.33kg ±

chrome

satin nickel
