## Queue Console

By Global Views

### Description

The Queue Console is a tour-de-force of Brutalist style. The base is an assemblage of randomly shaped figures standing in line which support a cantilevered glass top. Attachment points protrude through the glass from the base below. The sheet iron figures are hand-distressed and held together with brass brazing, then given a torched finish. All rests on a honed black granite base.

Shown in black / clear

### Specifications
