Spacey Eclipse Pendant

By Lasvit

Description

The Spacey Eclipse Pendant takes inspiration for the most perfect shape in the universe: the sphere. Intense variability and immeasurable beauty of the Universe is captured in Spacey thanks to a special technique called lithyalin. It looks like gemstone, yet it is actually glass. This technique was invented in Northern Bohemia more than 200 years ago and has now been resurrected in the same region by a Czech designer. Place over the dining table to make a stunning statement. UL listed. Made in the Czech Republic.
