Single-Pole 15A Switch with Tamper-Resistant GFCI Outlet By Legrand Radiant

Description

Radiant Tamper Resistant 15A Self Test Single Pole Switch/GFCI is a step up from the standard with simple, classic options in wiring devices, home automation controls and screwless wall plates that complement today's homes. Switch rating: 15A, 120VAC, Single Pole. Protects children: patented shutter system helps prevent improper insertion of foreign objects. Conducts an automatic test every three seconds, ensuring it's always ready to protect. If the device fails the test, the indicator light flashes to signal that the GFCI should be replaced. Also features Legrand's proven SafeLock protection feature: if critical components are damaged and protection is lost, power to the receptacle is disconnected. High-impact-resistant thermoplastic construction. Available in White, Light Almond, Ivory, and Black. UL listed. NOTE: RADIANT SCREWLESS WALL PLATE SOLD SEPARATELY.
