## Discovery Space Rectangular Pendant By Artemide

### Description

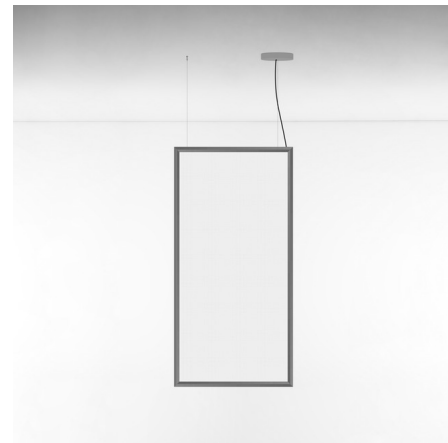

The Discovery Space Rectangular Pendant is a seemingly unobtrusive, utterly absent and immaterial element. A very light rectangle rim houses an LED strip that injects light into a specially worked surface with micro particles so small that the surface is hardly perceptible when the appliance is turned off. When the appliance is turned on, the transparent interior appears to fill with light as if by magic, as absence is turned into a perfectly diffusing emitting surface. Available with a Black, Bronze, or Polished Aluminum finish. cUL listed.
