In Vitro Bollard Light

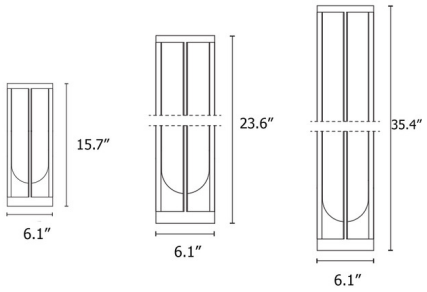

By FLOS

Description

Introduce elegant illumination to your outdoor spaces with the Flos In Vitro Bollard Light, a design that beautifully reinterprets the classic lantern into a contemporary, sculptural form. This fixture is a masterful blend of craftsmanship and advanced technology, designed to provide a magical, atmospheric glow. A concealed LED light source seemingly lights itself, warmly emanating through the slim, transparent glass dome shade, creating an enchanting ambiance along pathways, in gardens, or around outdoor seating areas.The In Vitro Bollard is available in three versatile sizes and a sophisticated palette of finishes, allowing for seamless integration into diverse landscapes. It offers flexibility in lighting control with Non-Dimmable or 0-10V dimming options, and a choice of 3000K or 2700K light color temperature to perfectly match your desired outdoor mood. Built to withstand the elements, it is UL listed for wet locations, ensuring durable and reliable performance in any weather.
