

BRAND Les Jardins Solar Lighting

DESCRIPTION

Add some Hawaiian flavor to your outdoor space with the Lanai Outdoor Solar Torch Light. This modern tiki torch-style light features a teak (Teak, Weathered Teak) or aluminum frame (Corten, Red, Space Gray) with frosted glass. Try a mix of finishes and sizes for a fun atmosphere, or stick with one finish for a clean, uniform look in your garden or pathway. This cordless LED lamp is rechargeable through the solar panel or micro-USB charging port. It has a simple on/off mode and a smart mode that automatically adjusts brightness based on ambient light and power reserves. The 3W 500 lumens option also has a motion sensor and dusk to dawn setting. A push button on the LED module is used to turn the light on or off, set dimming level, turn the motion sensor on or off (if available), and select operation modes. For the 2W 300 lumens option, a solar charge takes 8 hours in optimal conditions, and a fully charged lamp stays on for 4-150 hours depending on the dimming level used. For the 3W 500 lumens option, a solar charge takes 8 hours, a USB charge takes 7 hours, and a full charge lasts for 5-200 hours. A spike is included. Alternatively, this light can become a wall light or freestanding floor lamp using the wall mount or base accessory sold separately. Note: Only the smaller 24 inch height light is compatible with the wall mount.

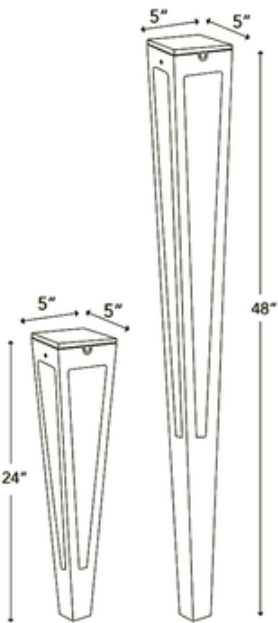

SHADE COLOR	Frosted
BODY FINISH	Teak
WATTAGE	3W
DIMMER	Included
DIMENSIONS	5"W x 24"H x 5"D
INTEGRATED LED MODULE
