## Melt Multi Light Pendant

By Tom Dixon

### Description

The Melt Multi Light Pendant is an obsessed with the idea of creating an imperfect, organic and naturalistic lighting object. Melt is evocative of molten glass, the interior of a melting glacier, or images of deep space. The Bronze, Copper, Gold, Silver, and Smoke shades are translucent when on and mirror-finish when off to emit an attractive display of light. The Opal shade offers a more traditional look and produces a gentle, warm glow. Note: The canopy ships undrilled, allowing for custom placement of the pendants. Holes for the cord to connect to the canopy must be drilled on-site during installation.

### Specifications

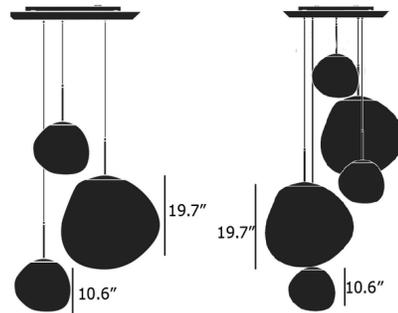

COLOR . . . . . Silver  
BODY FINISH . . . . . White  
WATTAGE . . . . . 18W
