Melt Mini Multi Light Pendant By Tom Dixon

Description

The Melt Mini Multi Light Pendant is obsessed with the idea of creating an imperfect, organic and naturalistic lighting object. Created in collaboration with FRONT, a Swedish design collective, Melt is evocative of molten glass, the interior of a melting glacier, or images of deep space. The Bronze, Copper, Gold, Silver, and Smoke shades are translucent when on and mirror-finish when off to emit an attractive display of light. The Opal shade offers a more traditional look and produces a gentle, warm glow. Note: The canopy ships undrilled, allowing for custom placement of the pendants. Holes for the cord to connect to the canopy must be drilled on-site during installation.
