Coral Dome Pendant

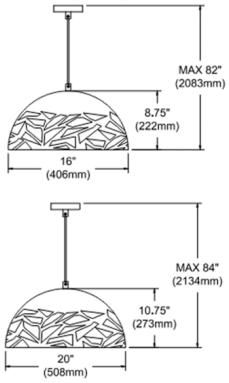

By Dainolite

Description

Escape to the ocean with the cleverly-crafted coastal lines of the Coral Dome Pendant. This piece is held securely from above by a sleek disc canopy and slender wire, with illumination provided by a single downward-oriented socket set into a metal dome. The shade's cutouts the natural patterns of coral reefs, obscuring some of the lamping's brightness while creating an ambient interplay of light and shadow around the fixture. Note: Not all options are available.

Shown in matte white
