Mirror Ball Round LED Multi Light Pendant By Tom Dixon

Description

The Mirror Ball Round Multi Light Pendant was an attempt to produce a completely spherical, highly mirrored object that would disappear into its surroundings. Instead it does the opposite and is an ultra-visible, highly reflective globe shape object that mirrors its environment. The Mirror Ball Round Multi Light Pendant features three matching round pendants that can be hung at varying heights making a bold statement. Available in Mirror or Gold. UL and CUL listed. Title 24. Note: The canopy ships undrilled, allowing for custom placement of the pendants. Holes for the cord to connect to the canopy must be drilled on-site during installation.
