Edward Wall Sconce By Astro Lighting

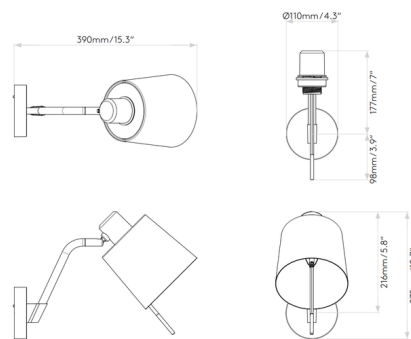

Description

The Edward Wall Sconce features a traditional design filtered through a modern lens, with decorative details pared down in favor of clean, fluid lines. The die-cast Matte Black base features contrasting gold accents and is complemented by a tapered drum shade. The Matte Black and Matte Gold shades are metal, while the Black, Putty and White shades are fabric. A slim handle allows easy light direction control -- the head tilts 90 degrees and rotates 330 degrees. This light is available with or without a switch. The switched versions have an on/off rocker switch on the base, especially convenient when installed as a bedside lamp.

Shown in matte black / matte black metal
