Lafleur Portable Table Lamp

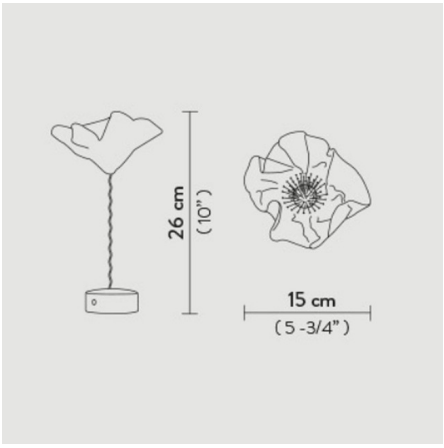

By Slamp

Description

The Lafleur Portable Table Lamp, designed by Marc Sadler, was driven by the desire to move beyond the known and find a new compositional language while shaping Slamp's techno polymers. The delicate, delectable, and rechargeable Lafleur battery-powered table lamp is formed by heating Lentiflex at a controlled temperature and then hand molding it to create the blossom. The lamp has a magnetic base and comes with a complimentary metal anchor, fit to go under a tablecloth for a whimsical mise-en-place, or screwed into the wall, turning Lafleur into a wall sconce. The rechargeable 5V Li-Po battery has a life of approximately 6.5 hours and max intensity to around 60 hours at minimum intensity. Available with a Black base and Velvet colored shade or White base with a Prisma shade. CE listed.

Shown in black / velvet

Specifications

COLOR	Velvet
BODY FINISH	Black
WATTAGE	1.3W
DIMMER	Included
DIMENSIONS	5.75"W x 10"H
INTEGRATED LED MODULE	1 x LED/1.3W/120V LED
