Wireline Pendant

By FLOS

Description

The Wireline Pendant sits between artistic expression and industrial design where functionality meets the unexpected. A suspended light is located within a tube of transparent glass. Rubber cables allow you to adjust the height of the fixture during installation. Suitable for high ceilings, Wireline can be installed as a single suspended light or in a group, ideal for hotel and office lobbies, as well as home lofts and open spaces. See attached recommended dimmer compatibility reference.
