STELLR Surface Mount

By Lucifer Lighting

Description

The Stellar Ceiling Light features an organic shape and conceals the performance mechanics of this minimalist luminaire. A directional downlight is paired with a polymer waveguide which allows for directional and ambient light configurations. Offers the ability to change the feeling of the room as well as the appearance of the luminaire. Includes soft focus lens and a standard junction box mounting plate. Downlight available in a 35 degree beam angle. Both light sources dim independently. Integral LED drivers dimmable with electronic low voltage (ELV) or Triac dimmer down to 1%. Stellar features two light sources downlight (direct) and waveguide (indirect). For simultaneous control of these sources, wire normally. For independent control of these sources, two separate 120V wires are required.
