DESCRIPTION

The Guardmax Emergency Wall Pack features a low profile architectural design constructed of die-cast aluminum housing with corrosion resistant powder coat finish with polycarbonate diffuser. Offered in two battery backup options with 120-277V photocell included as standard. 90 minutes emergency lighting with self diagnostic function and 4.8V maintenance free NiCad battery included. Equivalent to a 42 watt CFL. Field selectable wiring allows AC operation to be controlled using a wall switch, photocell, or other switching mechanism. 2 LEDs = 1,275 lumens in AC mode, 350 lumens in battery mode. Field-selectable wiring allows AC operation to be controlled using either a wall switch, photocell or other switching mechanism. Mounts to recessed junction box.
