ISP Wall Sconce By DCW Editions

Description

The ISP Wall Sconce resembles nothing on this earth. It's a mechanical jewel encased in a simple capsule. Designed from a bygone era, this piece works in a variety of styles. Available with a White tube and Brass capsule, in right and left options. Flip open the lid to illuminate, and pull the light tube out of the metal capsule. Can be mounted in a vertical or horizontal position. Slide the illuminated tube farther out of its brass sleeve to increase light output or slide back in to lessen output.
