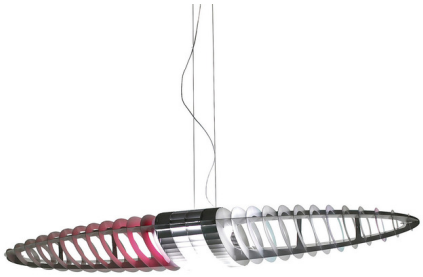
Queen Titania Pendant

By Luceplan

Description

The Queen Titania Pendant features an aluminum shell and steel bearing structure made up of a sequence of ribs which reflect the source of light. A pair of interchangeable filters allow the body of the lamp to change color without interfering with the emission of white light. Sold as a complete fixture (body, canopy and two filters in yellow, light blue, violet or pink). Counterweight suspension kit sold separately. UL listed.



Shown in aluminum / pink
